PRISON RIOT FINALLY QUELLED

BURNING STORY HOAX WOMAN ADMITS

SNOW CONTINUES FALLING NORTHWEST TEXAS

RANGERS RETURN TO AUSTIN AFTER LAST CONFESSION

YOUNG WOMAN FOUND TIED TO BURNING BED ADMITS SHE PERPETRATED ACT

FAIRFIELD, Mar. 27.—(AP)—Having satisfied themselves that the alleged attempted burning of Miss Wilma Jones was a self-perpetrated hoax, two state rangers returned to Austin today after a week's investigation.

Sergeant J. B. Wheatley said that the 23-year-old Leon county woman admitted to him that she set fire to her bed the night of March 19 to detract attention from her forgery trial.

Immediately after the fire she cast suspicion on G. S. Moore, wealthy Oakwood business man, on whom she was alleged to have forged a check. She later exonerated Moore.

Miss Jones was still held today on the forgery charge, but W. V. Geppert, county attorney, thought bond would be fixed during the day. He was uncertain whether any other charge would be filed against the young woman, stating "she has told so many stories I 'nt know what to believe."

Tommie Dodd and his mother, Mrs. Sarah Jane Dodd, of Buffalo, charged as accomplices in the forgery, were at liberty under $500 bail. They and Miss Jones waived examining trial and will await action of the May grand jury.

Sunday night Miss Jones accused a young man friend of trying to burn her to death, but Ser-

Deputy Sheriff and Negro Dead After Shooting

TEXARKANA, Ark., March 27.—(AP)A deputy sheriff and the negro who shot him as he was trying to arrest another negro yesterday for stealing a stove were dead today. Lucien Adams, 28, Miller county deputy sheriff, was shot and killed by Rufus Thompson, 34, a negro.

Dick Card, 28, companion of Aadams, fired after Adams was shot down. The negro died several hours later. Sheriff Fleet Magee had placed the wounded negro in an automobile and rushed him to another county, fearing mob violence.

No charge was placed against Card. Adams had a warrant for arrest of Roland Cheatham, negro, former tenant on Adam's farm, charging theft of a stove.

OPPOSE MILITARY TRAINING.

PORT ARTHUR, March 27.—(AP)—Denunciation of military training in public schools and colleges and a vote of approval for President Hoover's peace policy were voiced at the morning session of the annual Texas Conference of the Woman's Missionary Union of the Methodist Church South in convention here.

Dead Mexican Is Indignant When Dissection Begun

MEXICO CITY, Mch. 27.—(AP)—The apparently lifeless body of Fidel Zamudio was picked up on a street here. No one claimed it, so it was assigned to the Juarez clinic for dissection by students. During the night it was given a bath and was shaved and the next morning it was stretched on a table. The students gathered around and a knife was jabbed into the chest. There was immediate profuse bleeding and a lusty yell from the corpse. The wound was sewed up and science is endeavoring to save Zamudio's life. His apparent state of health was caused by catelepsy.

LOBBY COMMITTEE WILL INVESTIGATE PRO ORGANIZATIONS

BOTH WET AND DRY BODIES WILL BE GIVEN PROBING BY SENATE COMMITTEE

WASHINGTON, March 27.—(AP)—An inevstigating of wet and dry organizations is planned by the senate lobby committee.

Chairman Caraway of the committee said today the inquiry probably would begin as soon as the investigating into persons and organizations interested in Muscle Shoals was completed.

The Muscle Shoals investigation is expected to be finished next Tuesday with testimony by W. B. Bell, president of the American Cyanamid company, which now has an offer pending in congress to lease the government power ad nitrate plat.

Caraway said the first witness in the prohibition inquiry probably would be Representative Tinkham, republican, Massachusetts, who has asked to be heard by the lobby commitee.

After that, the chairman said, representatives of some wet and dry organizations probably would be heard.

Caraway said the inquiry in all probability would embrace the anti-Saloon league and the association against the prohibition amendment.

Recent Royal Groom Down With Measles

TURIN, Italy, March 27.—(AP)—Crown Prince Humbert, who recently took Princess Marie Jose of Belgium as his wife, was in bed today with measles.

Physicians said the disease, usually associated with children, was running its course, and there had been a noticeable abatement of fever.

He is residing at the Palace, refitted at the time he brought Princess Marie Jose here.

PROMINENT MASON DIES.

SWEETWATER, Mar. 27.—(AP)—W. M. Vaughan, 55, prominent West Texas Mason, died at his home here yesterday of pneumonia. Funeral services were planned for Big Spring today. He was survived by his widow and two children.

WHITE BLANKET IS SPREAD OVER PART NORTHWEST TEXAS

PRACTICALLY ALL OF STATE VISITED BY EITHER SNOW OR RAIN THURSDAY

(By The Associated Press.)

Snow that started falling yesterday in parts of West Texas continued in those sections today, while nearly every other part of the state reported rain.

In most cases, the snow melted as fast as it struck the ground, but the areas around Colorado City, Coleman and Throckmorton were reported under a white blanket. Temperatures in all sections were reported above the freezing point. The moisture was expected to benefit crops and ranges, and in some parts it broke droughts of several weeks.

The snow that was confined wholly to western areas yesterday had entered Central Texas today, Georgetown reporting sleet and snow with the temparature a few degrees above freezing. Highway travel in that area was made dangerous by an icy slush.

Other places reporting snow included Cisco, Stamford, Brownwood, Brownfield and Maryneal in Nolan county. Rain fell in Dallas, Corsicana, Wichita Falls, San Angelo, Austin, San Antonio and Sweetwater.

Cloudy skies were reported at Galveston with a north wind blow-

Smuggler Shot to Death Last Night El Paso

EL PASO, March 27.—(AP)— Long accustomed to such happenings, El Paso unconcernedly went about its business today, casually interested in the fact that one smuggler was killed in the seventeenth battle of the year, fought last night just west of the city limits in the smelter district between liquor smugglers and United States customs officers.

Francisco Velarde died almost instantly when a charge of buckshot from guns of customs men lodged in his back as he ran for a waiting automobile. His companion, Jesus Jaso, was captured and a large quantity of liquor seized.

THREE OF BANDITS HOLDING AMERICAN WERE CAPTURED

MEXICO CITY, March 27.—(AP)—A dispatch to the newspaper Excelsior, from Tepic today said three of the bandits who kidnapped J. E. Bristow, American oil man, were captured when they entered Tepic to negotiate for ransom.

Their names were given as Emilio Perez, Jose Guerrero and Jose Guerrero, Jr.

The account said that Mr. Bristow was the victim of his own imprudence in entering a part of Navarit which is beyond civil and military control and against which he had been warned. It was said he had located a gold vein and disregarded the advice.

General Pablo Rodriguez dispatched troops after the remaining bandits.

Arlington Youth Killed By Earth Slide Near Bridge

ARLINGTON, March 27.—(AP)—Jimmy Booker, 18, of Arlington was killed last night when buried under several feet of dirt while working in a bridge excavation. Two other youths escaped.

Booker and his two companions were digging in the excavation, about 15 feet deep when the slide came. They were members of a crew widening a bridge on the Fort Worth-Dallas pike.

A steam shovel and 50 laborers were employed today to recover the body, which was buried under at least 15 feet of earth. Further sliding of dirt handicapped workers. It is expected it would be nightfall before the body was reach-

AS SMOKE CLEARED

Though the shooting of Leon Sweitzer (lower insert) took the wind out of the sails of the cabaret in Chicago where "Tex" Guinan did her turns, that lady of "sucker" fame wise-cracked with her attorneys and detectives upon her arrival at the police station for questioning. Sweitzer, former owner of the cabaret, sought to collect rent. Harry O. Voiler (upper insert) is held.

Two Cleveland Men Victims of Gangland Feud

CLEVELAND, O., March 27.—(AP)—Two more victims of a gangland "ride" were chalked up to bootleggers' warfare today.

The bodies of two men, bound and strangled to death, were found in an automobile parked on a snow-swept road in Brecksville, a suburb, last night. Residents said the car was parked there early yesterday.

The dead men were identifed as Anthony Borsellino, 40, and his 35-year-old cousin of the same name, both of Cleveland.

Police were convinced they died in some gangsters' feud which possibly extended to other Ohio cities. The victims were last seen Tuesday morning when they left for Akron, saying thy were "going to see a friend."

AWARDED DIVORCE.

WASHINGTON, March 27.—(AP)—Mrs. Josephine Poole Knox has been awarded a limited divorce from Philander C. Knox, Jr., son of the former senator and secretary of state, on grounds of excessive intoxication and cruelty. The divorce was granted here yesterday.

Baker, Last of Powerful Group, 90 Years Old

BRUNSWICK, Ga., March 27.—(AP)—George Fisher Baker, lone survivor of a powerful group of financiers who commanded money industry at the beginning of the twentieth century, today observed his 90th birthday at the Jekyl Island retreat where he once conferred with J. Pierpont Morgna, James J. Hill, Theodore N. Vail and James Stillman.

Still active in the conduct of a wide variety of enterprises, the New York banker, whose silence has become a legend, planned a quiet day marked only by a family dinner. His son, Gorge F. Baker, Jr., his daughter, Mrs. S. S. John and her son, John St. John, all of New York, and E. E. Loomis, president of the Lehigh Valley railroad, were with him for the occasion.

Engineer Killed Result Peculiar Rail Accident

ANN ARBOR, Mich., March 27.—(AP)—Floyd Finch, engineer of a Michigan Central train, was killed last night by a loosened brake shoe hurled upward through the cab as the Limited roared downgrade at high speed near Jackson, Mich.

The fireman, R. H. Van Order, noticing Finch had slumped in his seat, stopped the train.

COSMETICS AND TOBACCO HIT

PORT ARTHUR, March 27.—(AP)—Advocating expenditure of less money by women for cosmetics and less money by men for tobacco and more for the education of young people today, Mrs. J. E. FRANCE WILLING CUT TONNAGE FOR SAFETY GUARANTEE

HEADS DELEGATIONS EXPECT HOLD PLENARY SESSION NAVAL PARLEY NEXT WEEK

LONDON, March 27.—(AP)—The chief delegates to the naval conference, meeting at St. James' Palace this afternoon, decided to hold a plenary session a week from tomorrow.

It was expected that the question of some sort of a security pact for the benefit of the French would come up at that time.

In the meantime, important negotiations were understood to be proceeding among the British and French and British and Italians regarding a security pact.

The plenary session will be to discuss the progress made thus far in the conference, the idea being that all angles to the situation should be brought out into the open. As one authoritiative conference source put it, "somebody will have to do some talking."

LONDON, March 27.(AP)—Aristide Briand, French foreign minster, was reported unofficially today to have told Arthur Henderson, British foreign minister, that France would be able to cut her naval

Woman Battler Against Liquor Under Arrest

PAMPA, March 27.—(AP)—For six months, Miss Beulah Allred has fought rum and what she termed the dirsegard of officers for the prohibition laws. Today she was under arrest, charged with transporting liquor.

Miss Allred protested she bought the whiskey to take before a grand jury in furtherance of her campaign, and was merely displaying it before using it for the intended purpose; but J. I. Downs, police chief, pointed out that the law did not recognize possibly good intentions.

Immediately after her arrest, Miss Allred, who has conducted her anti-rum campaign with mimeographed broadsides, advised the governor of her plight.

Says Can Do Nothing.

AUSTIN, March 27.—(AP)—Governor Moody said today he had received a telegram from Miss Beulah Allred, arrested in Pampa on a charge of transporting liquor, but declared there was nothing he could do about it.

Mrs. Claude De Van Watts, president of the W. C. T. U. of Texas has interested herself in Miss Allred's behalf. She said she had wired to Pampa for full particulars, and as soon as these were received, she would confer with Moody and Attorney General R. L. Bobbitt about the case.

DOCTORS BURNED AND BABY INJURED IN X-RAY BLAST

CANTON, Ohio, March 27.—(AP)—Two men, including a doctor, were shocked by electricity today in the X-ray room of the Molly Stark Hospital near here when a fuse blew out while they were working on the apparatus, according to officials of the institution. They were not seriously hurt, officials added.

CANTON, Ohio, March 27.—(AP)—Two physicians were burned seriously and a baby of whom an X-ray picture was being taken was blown across the operating room at the Molly Stark tuberculosis hospital northeast of here today by an explosion of the film. Ambulances and surgeons from Canton were rushed to the hospital.

Hospital officials were reticent to discuss the accident, claiming it was not serious. They admitted, however, that an X-ray tube blew up while the machine was in operation.

Dr. H. O. Black, who resigned as president of the hospital several days ago, was called to the hospital shortly after the explosion.

Police said the two physicians were badly burned, but this hospital authorities refused to confirm.

Several employes of the Ohio Power Company rushed to the hospital with an inhalator.

Sheep Rancher To Hunt Eagles From Airplanes

EL PASO, Mar. 27.—(AP)—Leroy Cleveland, owner of a sheep ranch near here, plans what is believed the first aerial hunt in history near Marfa next month, when an airplane will be used to hunt eagles.

He has contracted with an airplane concern to do the work, and the eagles will be shot from a plane flying alongside.

Cleveland explained large numbers of eagles had been raiding his sheep herds daily and carrying off young lambs. He tried hunting the birds from the ground, but could not get within shooting distance of them.

Clarency Aobey, chief pilot for the R. and L. Airways, said it was known among flyers that birds did not fear a plane in the air, and even if they tried to fly away from the plane, a swift pursuit ship could out-maneuver them.

WHEAT ACREAGE BEING REDUCED LEGGE REPORTS

WASHINGTON, March 27.—(AP)—Chairman Legge of the federal farm board said today that information received by the board indicated farmers were reducing spring wheat acreage to a greater extent than was shown by yesterday's report of the department of agriculture on intention to plant.

The chairman said the reports of growers on which the department had based its estimate probably were made in many cases as long ago as the middle of February. Since that time, he added, the board's reduction program had gained considerable impetus.

Department estimates showed that the intended planting of spring wheat acreage was 3.7 per cent lower than last year's harvest. Final figures, Legge said, probably would show a greater reduction.

Twenty-One Persons Injured When Motor Bus Turns Over

LAS VEGAS, N. M., March 27.—(AP)—Twenty-one persons were in the Las Vegas Hospital today suffering from injuries received last night when a Pickwick Transcontinental bus skidded on an icy highway and turned over near Tecolote, 15 miles southwest of here.

Only two persons were seriously hurt. They were Leroy Lighter, Los Angeles, who suffered a broken leg, and Cook Wilson of Denver, Colo., who received several fracturded ribs.

The top of the bus was torn off. The bus was enroute from Los Angeles to Denver.

MISSOURI CONVICTS REFUSE TO WORK AS FOOD FAILS PLEASE

PRISON GUARDS AND NATIONAL GUARDSMEN CONQUOR RECALCITRANTS

JEFFERSON CITY, Mo., Mar. 27.—(AP)—Tear gas bombs and clubs were used to rout 750 convicts from the dining hall of the Missouri penitentiary this afternoon and quell a second mutinous outbreak in as many days.

About twenty prisoners were injured in the clash with prison guards and a company of Missouri National guardsmen.

The convicts were dislodged with "dead" tear bombs containing no gas which were hurled into the dining hall to frighted them, but when they started rioting the guardsmen brought their clubs into action.

Windows in the dining hall were smashed, and objects were thrown, but the prisoners were not armed.

ESCAPE PLOT BARED.

JEFFERSON, CITY, Mo., March 27.—(AP)—Warden Leslie Rudolph of the Misspuri penitentiary announced this afternoon that he had learned an organized plot among convicts responsible for today's rioting to burn down at least two prison factories and, if possible, to make a break for liberty.

and the skirmish was short-lived. While it was under way a force of national guardsmen was stationed at one end of the stockade with machine guns trained on the hall, but not a single shot was fired.

JEFFERSON CITY, Mo., March 27.—(AP)—Approximately 500 convicts in five factories inside the Missouri penitentiary walls went on strike today, after 750 had mutinied yesterday against prison food. The new outbreak resulted in curtainment of operations in the plants, and about 900 prisoners were sent back to their cells.

Demanding better food and better working conditions, prisoners quit work in two overall plants, one pants factory, a chair factory and a broom factory.

The rebellion started immediately after breakfast this morning and spread during the forenoon from one plant to another.

Shortly before 11 o'clock the first line of 400 convicts was started to the penitentiary dining hall

RECOMMENDATIONS HOOVER LAW ENFORCEMENT BODY ARE STUDIED HOUSE COMMITTEE

WASHINGTON, March 27.—(AP)—Recommendations of the Hoover law enforcement commission for improving the administration for the prohibition laws today engaged the attention of the house judiciary committee in executive session.

The committee's public hearings on measures proposing repeal of the Eighteenth amendment, which have seen the dry laws excoriated by wet spokesmen and staunchly defended by the drys, were in recess until next week.

They will be resumed on Wednesday with the prohibitionists continuing the presentation of witnesses and concluding their case before the close of the day's session. Then, under present plans, the hearings will be discontinued for two weeks after which the wets will offer rebuttal testimony.

Next week's dry witnesses are expected to include F. Scott McBride, general superintendent of the Anti-Saloon League. McBride was introduced late in the day yesterday, but the hearings were adjourned before he could begin his testimony.

The drys are still holding in reserve statements from Prof. Irving Fisher of Yale, economist, and from Dr. Clarence True Wilson, general secretary of the board of temperance prohibition and public morals of the Methodist Episcopal church.

Of four legislative proposals made by the law enforcement commission, one—a recommendation that the prohibition unit be transferred from the treasury to the justice department—has been passed by the house and is awaiting consideration by the senate.

Important among the others was a recommendation that the powers of United States commissioners be so broadened that they may try minor offenders against the prohibition laws in order to relieve congestion in the federal courts.

The committee has already given this feature of the proposals considerable amount of its time and is now studying the question of modifying the Jones law—providing maximum penalties of five years' imprisonment and $10,000 fine for dry law violations—in connection with the formulation of legislation to put it into effect.

EINSTEIN PRESENT PROOF OF GRAVITATION AND ELECTRICITY CONNECTION IN NEW REPORT

BERLIN, March 27.—(AP)—Professor Albert Einstein has presented to the Prussian Academy of Sciences a new paper he has written with Dr. W. Mayer on two strictly static solutions of the field equations of his uniform field theory. It connects gravitation and electricity.

These solutions were described as follows: These field equations can be rigorously solved in two cases. The first case is that of a spherically symmetrical field in space, for example, the external field of an electricalaly charged sphere of fixed mass. The other case is that of the static field of any number of uncharged mass particles at rest with respect to one another.

BY HOWARD W. BLAKESLEE.
(Associated Press Science Editor.)

CAMBRIDGE, Masas., March 27.—(AP)—Einstein's first practical proof of some connection between gravitation and electricity is announced in his new paper.

His discovery of mathematical equations which he said prove that gravitation and electricity are related created a world sensation about a year aago. One of the great goals of science is to learn the connection between these two universal forces. With light, they affect every moment of human life.

Einstein's first announcement did not attempt to say what the relation is, but only that is existence is demonsrated in mathematical formulaa, which he called field equations. These equations, however, failed to work altogether satisfactorily, and their accuracy was challenged. Einstein modified them seeking to eliminate weak spots. The Berlin dispatch indicates success.

Dr. M. S. Vallarta, assistant professor of physics at Massachusetts Institute of Technology, today explained the importance of the Berlin announcement

"It means," he said, "that Dr. Einstein has found from his latest equations both the laws of gravity and the laws of electricity. The same equation give both of these laws correctly. This, at least, is the conclusion to be drawn from the brief description.

"By giving correctly both gravitational and electrical laws the equations seem to verify the existence of a connection between the two fundamental forces. This is the first time that a mathematical solution has worked. It is very important.

"An idea of the first solution—that of a spherically symmetrical field in space—may be obtained from comparison with physical conditions upon the sphere which as conceived in the mathematicl solution, is not flattened at the poles like the earth, but is perfectly round. With such a globe the pull of its gravitation would be the same everyhere at a given distance above its surface. The electrical forces of such a globe assumed to be electrically charged would likewise be symmetrical. It is to the gravitational and the electrical forces of such a globe that Einstein has applied his field equations.

"The second solution is not so important, being in the nature of a confirmation."

where yesterday's demonstration occurred. They were orderly, but the situation was tense.

It was the plan to feed all prisoners not participating in the strike in the dining hall on customary schedule and to serve the others in their cells where they are to be kept until prison officials single out ring leaders in the strike.

Some Are Isolated.

The instigators were placed in solitary confinement in a new cell building set apart for rebellious convicts, there to remain until the rebellion is quelled.

"We are still trying to deal with them as friends," Warden Rudolph said, "but we have quit arguing. We will use force if necessary to end this trouble."

The atmosphere became more tense when, shortly after noon, 750 convicts who had been taken into the dining hall for lunch, refused to leave when the signal was given to file out. The prison band, which plays during the noon hour, kept up its tunes.

Many of the convicts were the ones who started the trouble yesterday with a rebellion against the food given them for their noonday meal.

Warden Rudolph, again summoned to the hall, declared the time had come to act and if the prisoners did not leave he would call in the National Guardsmen and force them out.

Uproar Started.

The whole interior of the stockade, in which there are two cell buildings, was thrown into an uproar when the 750 convicts in the dining room began banging on the table with their plates and shouting in disorder.

Prisoners already locked in cells took up the shouting, jeering and cat-calling, and the cell house became a din of noise.

With three machine guns trained on the stockade from the armory on the second foor of the warden's office at one end of the inclosure, the warden and guards merely stood awaiting arrival of Guardsmen, who were mobilized in their armory down town.

The band finally was sent out of the stockade and all that could be heard was the riot of convicts' voices.

Fifty more convicts who worked in the twine factory announced after lunch they would not return to work and were taken immediately to their cells. The factory was closed.

At this time most of the industries inside the prison had ceased operations.

Refuse to Work.

Approximately 150 men on one floor of the chair factory refused to start work this morning following breakfast, and several of them demanded less work and better food. Warden Leslie Rudolph entered the factory and told the men they would either work or go back to their cells.

About 60 still refused to work, and they were taken to "I" hall and locked up. Warden Rudolph said he had done as much as he could and if "any trouble is bound to come, the prison organization will meet it accordingly."

Gov. Henry S. Caulfield was hurriedly called from the executive mansion and went into conference with members of the prison board.

The local National Guard company also was called to the penitentiary as a precaution.

The penitentiary houses more than 4,000 convicts although it originally was built for only 2,600.

The mutiny yesterday was without violence, the convicts objecting to the kind of food served them and demanded meat. Their demonstration ended when Warden Rudolph promised better food. The prison was quiet last night, and today's rebellion came unexpected.

Wednesday Revolt Finally Quelled

JEFFERSON CITY, March 27.—(AP)—The Irish stew rebels, 750 strong, awakened in their cells at the Missouri state penitentiary today having tasted the friet meat they demanded in two hours of hammering with fists on dining room tables yesterday. They had won their strike, however, in the promises for menue improvement of Warden Leslie Rudolph, who declared the 1600 pounds of fresh boneless beef, four barrels of potatoes, 75 gallons of tomatoes and seven bushels of onions was probably not what it should have been.

Credit for quelling the incipient riot went to the warden, who entered the dining room alone, and told the convicts any complaints about food would be considered. Hissed as he started to speak, the warden's words pacified the prisoners, and they marched orderly to their cells. They also cheered him. The men were given stewed prunes, bread, syrup and coffee for their night meal.

National guardsmen, summoned when the rebellion was first reported, entered the prison as the peaceful dispersal began from the dining room. Other units, mobilized in neighboring cities, were dismissed.

LOCAL RECREATION CLUBS ARE ORDERED PADLOCKED BY JUDGE

Orders were issued Wednesday afternoon against G. S. Bush, John Spalaras and the Corsicana Recreational club and also against W. B. Humphreys, J. P. McClung and the Business Men's club here by Hawkins Scarborough, judge of the Thirteenth judicial district court, upon suits filed by H. B. Daviss, county attorney, directing the sheriff to close and keep closed the above mentioned clubs, alleging in the suits that the permanent injunctions entered through agreement on Feb 27 which would prevent the exhibiting and operating of pool halls pool tables and other alleged gaming devices had not been observed.

The orders entered are for the padlocking of the two clubs, it was stated.

Students Found Have Many Defects By Health Nurse

In a test for general physical defects in the commercial department of the high school Tuesday by Mrs. Gunn of the public health board, a total of 59 students tested, 33 of which were found to be below standard in one or more ways and 57 defects were discovered.

The object of the examination, according to Miss Manette Wilson, commercial instructor, was to discover the defective students who would otherwise be recommended for outside copy and shorthand work, but who could not render first class service on account of their impediments.

Three members of the departmnt were discovered to be totally blind in one eye, and 27 students failed to measure up to the standard eye examination. Six students had bad teeth, one had defective hearing, and one had throat trouble, the test showed.

CLAIMED MORTALITY RATES ARE LOWERED UNDER PROHIBITION

WASHINGTON, March 26.—(AP)—After a week's recess, the prohibition hearings were resumed today by the house judiciary committee, with John J. Lentz of Columbus, Ohio, testifying that 77 insurance companies had found that the mortality rates had been lowered under the dry statute.

Before the hearing got under way F. Scott McBride, general superintendent of the Anti-Saloon League, announced that the drys would like to have at least two more days in which to complete their case.

At the outset, Representative Hadley, Republican, Washington, read a telegram into the record from J. J. Donovan of Bellingham, Walsh, defending the Dollar Steamship Line from what he termed charges by Representative La Guardia, Republican, New York, that liquor had been dispensed on the line.

Donovan wrote he had traveled on the Dollar steamships in different parts of the world and had not seen liquor used or dispensed aboard them. The telegram also praised Captain Dollar, head of the line, as a valuable citizen of the country.

Representative La Guardia interposed he would place into the record a report of the fines imposed on the Dollar ships for violations of liquor and narcotic laws, at the proper time.

Has Saved People Millions.

Lentz read from a prepared statement. He contended prohibition had saved the American people millions of dollars.

Lentz quoted former Premier Lloyd George about prohibition, in which the Britisher held:

"The abolition of the saloon is in part the cause of America's prosperity."

The witness added that the Methodists and other protestants had repudiated the saloon and alcoholic beverages while the "Catholic church, through some of its most noble leaders, has spoken against the liquor traffic."

Lentz presented a digest of reports to the committee, which, he said, showed the death rate of infant children had been lowered since prohibition. Wherever alcohol was used as a beverage, he argued, the death rate was increased from 30 to 70 per cent.

Canadian Testifies On Liquor Control

WASHINGTON, Mar. 26.—(AP)—Assertion that in most Canadian provinces "we have not really even a pretense at government control" of liquor was made at the house judiciary committee's prohibition hearings today by E. O. Drury, former prime minister of Ontario Province, Canada.

"Government control is not the remedy" the Canadian said. "Effective control is indeed impossible. The Anglo Saxon temperament will not stand for the inquisition into private affairs which would be necessary to establish any effective control.

"All we have is government sale—with consumption in the home or the hotel bedroom. No longer is a drink a man's vice. Women and children are exposed to it. The home is the last place in the world where liquor should be consumed. Crime is increasing drunkenness is increasing, motor accidents are increasing. Whatever the solution of the drink problem may be, it is not government control."

FORMER CORSICANA VICTIM ACCIDENTAL DEATH AT ELECTRA

The body of Herbert A. Hoffman, aged 22, employee of the Magnolia Petroleum company, Electra, Texas, who died at Electra Tuesday morning at 8 o'clock from injuries received when he fell from a truck, the wheel running over his head and fracturing his skull, arrived in Corsicana at 11:20 o'clock Wednesday and the funeral was held from the Methodist Protestant church Wednesday afternoon at 4:30 o'clock with interment in Oakwood cemetery.

Surviving are his father, J. W. Hoffman, Corsicana; five brothers, Willie Hoffman, Abilene; Chris, Bodie, Samuel and Jack Hoffman, all of Corsicana; two married sisters who reside in Abilene, and two sisters, who are at home.

The funeral services were conducted by Rev. Kenneth Copeland, pastor of the Methodist Protestant church.

Pallbearers were Wayne Walker, Aubrey Franklin, Duval Hedrick, Claude Pickering, Arthur Lee Hewitt and Tom Gries.

The funeral was directed by the Sutherland Funeral Home.

Snowfall Ceases In Chicago Area

CHICAGO, March 27.—(AP)— The snow had ended today, but the slush and drifts lingered on.

The snow stopped last night as suddenly as it started Tuesday morning, leaving Chicago and its suburbs shrouded in the heaviest continuous fall in the city's history—19.1 inches.

Although the city was no longer faced with the necessity of fighting more snow, it had by no means coped with what it already had. Traffic was still delayed and in some cases paralyzed, schools were dismissed, and streets and sidewalks were clogged.

Along the lake front and in other places, drifts were piled high and held hundreds of automobiles fast. In the more congested districts, the snow had turned into a dark slush, ankle deep at most intersections.

Street car lines, hardest hit of the transportation systems, were able to serve customers on most of the main routes, but were far from normal and were not even attempting to run on many of the branch lines. Twenty thousand men and 250 pieces of machinery worked all night attempting to clear the rails.

Motor clubs reported all highways leading to Chicago were blocked and inter-city bus services were suspended. The roads in Southern Illinois and in parts of Indiana held hundreds of snowbound motorists.

Six more deaths yesterday brought the number attributed to the storm to ten.

Storm Warning.

NEW ORLEANS, March 27.—(AP)—The following storm warning was issued today by the weather bureau here:

"Northeast storm warning ordered 8:30 a. m., Morgan City, La., to Brownsville, Texas. Disturbance near mouth of Rio Grande will move eastward and cause strong northerly winds today and tonight.

NEW PRIMATE NAMED.

FORMER CORSICANA WOMAN ANNOUNCES AS CANDIDATE GOVERNOR

ENNIS, March 24.—Formally announcing her candidacy for the Democratic nomination for governar, Miss Katie Daffan of Ennis Monday made public the platform on which she will make the race. She stresses liberal state assistance for Confederate Veterans, their wives and widows and adequate appropriations for the Confederate and Confederate Woman's Home.

"I wish in the beginning," Miss Daffan said, "to express my appreciation of and my respect for the present executive of our state, Governor Moody, and of those executives of our state, now living, who have preceded him in office. Each one has left the imprint of his service upon the heart of Texas. Each one has served our state to the highest point of his ability and strength and Texas praises, as she remembers, the loving service of each one."

If elected governor, Miss Daffan said she will do all possible to see that the laws are obeyed "in the spirit and in the letter." She believes the governor should not interfere with nor dictate to other officers of the government, but "attend very closely to the business of the office to which elected."

To Help Education.

"Opportunity will be sought and sacrifice made, if necessary, to promote the substantial progress of education in our state," the platform says, mentioning all phases of education and advocating increased pay for instructors. Conferences with the state department of education and the Texas State Teachers' Association would be invted to see how best the schools may be served. The best textbooks possible are advocated with special accuracy insisted on in matters of biography and history.

No religious tests shall be required of those seeking appointive office, Miss Daffan says, except the acknowledgement of the existence of a Supreme Being.

Miss Daffan would have laws passed making exempt from taxation farm homes, not to exceed $4,000 in value, and the home of every widow which does not exceed in value $5,000. She would favor a tax on luxuries, including tobacco, toilet articles and perfumes.

Labor would be given such legislation as is needful. 'For farm relief, laws are suggested requiring crop rotation and diversification.

Better prices for farm products are advocated. Special care will be given toward the solution of this problem, Miss Daffan says.

Placing of the state prisons on a self-supporting bass is urged, along with "a firm, impartial, business management." No stand is taken on any of the proposed prison sites, Miss Daffan saying her prison plank "will solve the problem wherever our prison is located."

Justice and mercy both will be invoked, the candidate says, in reference to issuance of pardons.

Opposes State Road Bonds.

Miss Daffan does not favor the issuance of state highway bonds at this time, advocates a reduction in the tax on cars, the retention of the 3c gasoline tax, the barring of extra wide vehicles from the roads and the steady bulding of a good highway system. She also urges especial attention to the mapping of airways and building of airports.

Establishment of more state parks, playgrounds and recreation centers is urged. An athletic commission is advocated, to serve without salary, to have general supervision over clean sports and games.

Assistance to World War veterans, wherever possible, is urged. Miss Daffan favors taking the best of care of those in various eleemosynary institutions.

Miss Daffan closes her announcement by appealing to the women of the state to support her cause, so that she can aid in bettering conditions, and by appealing to the men to vote for her, promising.

The negro nurse is expected in Corsicana about April 1 and will give a series of demonstrations.

TARRANT COUNTY MAY SEEK PAY FOR KEEPING PRISONERS

FORT WORTH, March 25.—(AP)—Failing to leave their prisoners on the state prison's doorstep, Tarrant county may seek to collect from the state for their board and keep.

Acting on a resolution passed by commissioners' court, County Judge S. D. Shannon said he planned to write the state prison board informing members that Tarrant county expected to be reimbursed for those prisoners kept in the county jail until the state could find room for them. The fee named was 50 cents per day per prisoner.

GOVERNOR KOHLER OF WISCONSIN ASKED PAY TEXAS VISIT

AUSTIN, Mar. 26.—(AP)—Governor Moodey has transmitted an invitation to Governor Kohler of Wisconsin to come here and investigate for himself conditions in the Rio Grande Valley and elsewhere complained of by the Wisconsin state realty board.

He announced he would go with Governor Kohler on a visit to the Valley in event the chief executive would come.

"I am asking the governor to bring with him a committee of business men from his state, men whose word will bear weight, and, in event Governor Kohler cannot come, I want him to send the business men along," Governor Moody said.

He announced he would make the request, after he had held a conference with George F. Kull, secretary of the Wisconsin Manufacturers Association, who arrived today. Kull was sent to Texas after the state senate had passed resolutions suggesting that Texans refrain from purchasing articles and products offered for sale by Wisconsin so long as the realty board of that state persisted in refusing to grant permits to certain Texas companies to sell lands there.

Will Plan Own Trip.

Kull said he would probably go to the Rio Grande Valley for a visit, but he would "proceed under his own steam."

A delegation composed of Earl Bacon, land dealer; Finley Ewing and Representative Polk Hornaday, all of Harlingen, and Ray Leaman of Corpus Christi, manager of the South Texas chamber of commerce, were here to invite Kull to visit their section. John Newman, deposed executive secretary of the Wisconsin realty board, was in the party also.

Newman had claimed he was dismissed because he purchased a Rio Grande Valley citrus orchard on a recent visit to Texas.

Kull said if conditions in the Rio Grande Valley are what they are claimed to be, he will urge that the action of the Wisconsin real estate board and the Milwaukee real estate board be rescinded and that no boycott be placed on the sale of Texas lands in the Badger state.

Kull stated he would confer further with the governor after his investigation. He declared he had found the governor and other Texans with whom he had come into contact opposed to the policy of one state establishing a boycott against another. He expressed the hope that any person considering a boycott against Wisconsin products would defer until the states have had time to correct any existing evils.

Travis Holland, former Corsicana resident, was here Tuesday greeting old friends.

HOUSE JUDICIARY COMMITTEE APPROVES ENFORCEMENT BILL

WASHINGTON, March 27.—(AP)—The first of the national law enforcement commission's recommendations to strengthen the prohibition laws was approved today by the house judiciary committee when it favorably reported the Christopherson bill to authorize service by publication of padlock injunctions on absentee owners of speakeasies and other nuisances.

The committee also considered the Stobb bill to modify the Jones law to define minor offenses of the dry law and to fix the maximum penalty for them at six months and a fine of $500. The committee, however, adjourned until next Thursday without taking action.

Building Bill Passed.

WASHINGTON, March 27—(AP)—Congressional action was completed today on the Elliott bill to authorize appropriation of $230,000,000 for public building construction when the house accepted senate amendments. The emasure now goes to the president.

Road Bill Approved.

WASHINGTON, March 27—(AP)—The Colton bill authorizing appropriation of $30,000,000 for federal highway aid in the fiscal years 1931, 1932 and 1933 was approved today by the house public roads committee.

Suit is Settled.

WASHINGTON, March 27—(AP)—Settlement of a suit with the British government whereby approximately $12,500,000 worth of stocks attached during the World War will be returned to German owners was announced today by Howard Sutherland, alien property custodian.

Under the agreement the United States paid today about $250,000 to cover the cost of litigation over the securities. In return, Great Britain returned title to $17,000,000 worth of stock to the alien property custodian whi will restore about 80 per cent to the original owners in the near future.

CHARGED IN EXTORTION PLOT

BAXTER SPRINGS, Kas., March 27.—(AP)—Charged with perpetrating an extortion plot demanding $50,000 of L. D. Brewster, Baxter Springs capitalist, Miner F. Crawford, of Picher, Okla., was held in jail here today in default of bond set upon his arraignment in justice court.

Giant Snake On Exhibition Here

An unusual opportunity presents itself to people of Corsicana to view a giant python snake on exhibition here at 112 South Beaton street. This giant snake has a nation-wide reputation for his feats of swallowing a 45 pound pig and a full size bed blanket. He retained the blanket in his stomach for two months before disgorging it. This giant snake measures 32 feet long and weighs 360 pounds, and has eaten nothing in six months.

The big snake has been on exhibition in some of the largest zoo's in the United States and has attracted nation-wide attention.

The owners will keep him on exhibition in this city the remainder of this week only.

RANGERS RETURN TO AUSTIN AFTER LAST CONFESSION

(Continued from Page 1)

geant Wheatley said she later admitted she fired the mattress.

FAIRFIELD, March 27.—(AP)—The supposed attempt to burn to death Miss Wilma Jones, 23, last Wednesday night, today had dwindled to what officers said was a self-perpetrated hoax.

All principals in the case were free, including the alleged victim of the burning, who must, however, answer to the next grand jury on the charge of forgery, the first charge filed in the perplexing case which grew into a presumed attempt at murder or blackmail. Officers were undecided whether further charges would be filed.

While state rangers maintained Miss Jones held to her hoax story—her latest, after two others successively involving two man of this section—County Attorney Geppert said she had denied the hoax story and he was at a loss to know what to believe.

Miss Jones was dragged from her room last Wednesday night after the hotel proprietor found the mattress on her bed burning.

FRANCE WILLING CUT TONNAGE FOR SAFETY GUARANTEE

(Continued From Fake 1)

tonnage program if the fivepower naval conference would produce a pact of mutual guarantees for the Mediterranean.

M. Briand indicated he thought such a pact should be on the lines of theleague of nations model treaties for mutual guaranty, which to his mind would not mean that Great Britain would undertake obligations other than those which she has accepted under article XV of the covenant of the league of nations.

Meanwhile, heads of the delegations had under consideration today fixing of a date for a plenary session next week. It is believed that by the time that session takes place the new situation which has arisen as a result of a re-entrance of political considerations into the conference would have resolved itself into something definite.

M. Briand was back in London, it was agreed generally, for the principle purpose of ascertaining just what new offer Great Britain and the United States are prepared to make in return for reduction of what those two nations have considered as France's too large naval estimates.

Conflicting Opinions.

There were conflicting opinions as to what this new offer would be. Some taking their cue entirely from the American delegation's statement at Tuesday midnight that a consultative pact proposal, which did not envolve any guarantee of military assistance, would be considered with an ope nmind, believed that Britain might, finally have seen fit to offer France a measure ofsecurity she wishes as the price of naval reduction.

British political observers, however, generally could not believe Mr. MacDonald had been or would be willing to take such a step which almost certainly would bring a storm of protest from the British public, and might cause a fall of his government. Some members fo the British morning press have already adopted a vigorously protesting attitude.

Secretary Stimson and Prime Minister MacDonald in a meeting yesterday were said to have reassured each other that the government of neither would or could involve itself in a political pact implying any new military obligations.

Whatever these two leaders and their colleagues have in mind there was no denying that possibilities of a five power limitation treaty have been reawakened.

TOKYO, March 27.—(AP)—Opposition by the naval general staff to the tentative naval tonnage formula for America and Japan as outlined at the London conference appeared today to have forestalled Japan's decision as to its acceptability.

An extraordinary session of the cabinet, called for today to pass on the formula, which provided that Japan was to be allowed 60.6 per cent of the naval tonnage of the United States, was called off.

From authoritative sources it was learned various difficulties had arisen in drafting instructions to the Japanese delegation at London.

Mediterranean Pact.

LONDON, March 27.—(AP)—It was learned today that an experts' committee had been established to draft a Mediterranean pact which would be a new guarantee of French security and still not commit Great Britain beyond the obligations already implied in Article XI and XVI of the League of Nations covenant. The membership includes Sir Robert Van Sittart for the British and Rene Massigli for the French.

Oppose Consultive Pact.

WASHINGTON, March 27.—(AP)—Senator George of Georgia, Democratic member of the senate foreign relations committee, expressed the opinion today that a consultative pact, now mentioned in connection with the London naval conference, would meet with stubborn opposition in the senate.

LIBEL SUIT TRIAL ON LIBERTY ARTICLE OPENS FORT WORTH

WIDOW AND CHILDREN OF SON OF SAM HOUSTON SUING MAGAZINE FOR LIBEL

FORT WORTH, March 27—(AP)—Reference to Texas' most famous character, General Sam Houston, and to the parentage of his fourth son, Temple Houston, were not touched upon at the first day's hearing of the $200,000 libel suit of Temple Houston's widow against Liberty Weekly, Inc., in federal court.

Mrs. Houston, of Woodward, Ok., asks $200,000 and each of her four children is suing for $100,000, over an article by Don Seitz entitled, "Sam Houston—the Savior of Texas," published in the magazine in June, 1928.

The plaintiffs allege the memory of Temple Houston was libeled in one paragraph of the article, which they claim said he was the son of General Houston by a marriage with an Indian woman and that Temple Houston was a dangerous citizen.

The trial afforded dramatic moments yesterday when C. W. Herod, long time resident of Woodwrad, Okla., described two "shooting scrapes" in which Temple Houston participated more than 30 years ago.

Mrs. Houston sobbed during her testimony, but on cross examination admitted the magazine article had not damaged her social standing or lowered her in the esteem of her friends.

Former Resident County Wants Hear From Old Friends

The Corsicana Semi-Weekly Morning Light has received a letter from A. M. Teague, former resident of this county in which he states he is now living at 1416 1-2 South Denver, Tulsa, Oklahoma, and that he would be glad to hear from some of his old friends.

Mr. Teague states that it has been twenty-five years since he visited Corsicana but that he has most pleasant memories of the city and county where many close friends resided. He says he hopes to visit here this summer and that he has two sisters and two brothers residing near Corbet.

Maine Republicans In Harmonious Meet

BANGOR, Maine, March 27.(AP)—Running true to forecast and with no dissention apparent the republican state convention in short order today adopted a platform, listened to addressed and adjourned, two hours and one half after it convened.

The platform praised the Hoover administration, pledged support of the 18th amendment and declared enactment of the White-Jones merchant marine act justified by immediate return in addition to touching on various state subjects

BODY OF INDIANA YOUTH FORWARDED HOME THURSDAY

The body of Ralph Berlon Graf, 20, who was almost instantly killed Tuesday afternoon when he was shot by T. M. Franks, county farm guard, while eighteen prisoners were being conveyed to the farm in a truck, was forwarded to his home in Tipton, Indiana, at an early hour Thursday morning. The body was accompanied by Homer Alspaugh, buddy of Graf, who was also on the county farm. Tipton will be reached at an early hour Saturday morning.

Graf and Alspaugh were arrested here during the week-end for the alleged unlawful riding of a train and were sent to the county farm Monday afternoon to work out their fines. It was stated by Franks that the youth jumped from the truck and he fired when he failed to heed his command to halt while making a break for liberty. Franks stated he fired at the youth's legs but that Graf stumbled and the charge of buckshot struck him in the back.

Graf was dead when he reached the Navarro county hospital.

The body was prepared for burial and forwarded to Tipton by the Sutherland Funeral Home.

C. E. White, superintendent of the county farm, released Alspaugh so that he could accompany the body home. It was reported that local citizens made up the necessary money to purchase a ticket for Alspaugh.

The Navarro county grand jury is reported to be investigating the affair, but early Thursday morning no intimation as to what action would be taken. No complaints were filed against Franks.

Woman Found Bound To Steering Wheel

BAD AXE, Mich., March 27.—(AP)—Bound with adhensive tape, a dog collar and rope to the driver's position in her automobile, Mrs. Elsie Mills, 25, of Detroit, drove into a filling station south of here last night and told of having been kidnapped near her home. She and her husband, she said, had received notes threatening them if they appeared in a civil suit filed against them by a former landlord.

IN MEMORY.

On the morning of the 14th day of February the Death Angel visited the home of Mr. and Mrs. J. C. Fitzgerald and took from them their loving daughter, Reba Charlie. She was ill only a short time, but everything that loving hands and faithful doctors could do was done, but all was in vain.

If she had only lived until the 12th day of March she would have been 9 years of age. Although we want to keep them with us, we must submit to God's calling for His will, not ours, be done for He says "If I come once I shall go back and prepare you a place in My Mansion, and come again." That means when He gives life to them then He prepares a place for them.

Our darling thou art gone away,
From this earthly prison thou art free.
We could not, would not bring thee back,
But darling we can come to thee.
Their precious one from them is gone,
Her lips they kissed are still;
A place is vacant in that home
Which never can be filled.
The garden gates were opened,
A gentle voice said "come."
And with a farewell unspoken,
She calmly entered home.

O. N. Newburn Has Left Barry to Make Home in Jacksonville

BARRY, March 24, 1930.

Thinking that some of my friends might want a line from me before I go, I am giving you a brief sketch of my stay here.

I moved to Barry in 1910 and entered the drug business and in some respects I have made a success here. I have not accumulated much wealth but have done more than make money. I have made a host of friends whom I love and cherish more than all the wealth of the land.

The people of this county have been exceptionally kind and generous to me and I am leaving here with the sweet assurance that I have tried to be true to my friends and have never deceived or misled any one.

In leaving this community, I desire to say that I never met better people in my life and shall always remember you kindly. You have stood by me and aided me in more than one way and if I should live to be four score and ten, I shall never forget you.

To the faculty of our school I desire to thank each teacher for his untiring efforts in making our school what it is.

To our bankers, I want to thank them for their many favors extended.

To the business men, I bid you Gods' speed and hope this may prove the best year in your lives.

To our churches, let me urge them to be loyal, and true. No one can be too enthusiastic over the church work. May God bless you all.

To my Sunday school pupils, I know not what to say. Language can not express my felings towards you. I have met with you for twenty years and I must confess that my happiest hours have been spent in trying to lead you to Jesus Christ. As to what my work has accomplished, God alone knows but your lives as students have been a great benediction to me.

I can not refrain from mentioning a few others for such families as Mr. and Mrs. J. D. Heaton, who have handled Uncle Sam's work so efficiently, deserve much credit for their untiring efforts. I could mention hundreds of others who deserve honorable mention but space will not permit.

In closing, may I say that I shall be glad to hear from any one who cares to hear from me and you will please address me hereafter at Jacksonville, Texas.

May God bless each reader of the Corsicana Light and Daily Sun and may this year bring unexpected blessings to you all.

Sincerely yours,
O. N. NEWBURN,

Seven Reasons for NESCO'S Popularity

THERE is a *modern* kerosene stove that has brought the comforts and conveniences of city gas cooking to the farm and to the suburbs. The *modern* Nesco will bring new joys to your kitchen —new cooking speed, new saving of time, new simplicity of operation, new safety! . . . Think what it would mean to start your stove cooking and then go about your household or outdoor chores! Yet, women who are using the *modern* Nesco do this. They *know* the *modern* Nesco is a safe stove.

See all these features

Cool Kitchen — Short chimney produces blue gas flame in contact with utensil. Nesco cooks with a hot, blue flame, *not* heated air that spreads to kitchen.

Fast Cooking — Nesco quickly fries steaks, bakes, roasts and toasts.

Economy — A Nesco will burn 24 hours on one gallon of kerosene per burner.

Beauty — Glistening, easily cleaned finishes in baked enamel and porcelain enamel trim.

Simplicity — No ratchets or gears to get out of order. Easy to clean and keep clean.

Trouble-free Wicks — The famous Nesco Rockweave Wicks are made of woven, wire-cored asbestos and are non-burning, long lasting and require no cutting.

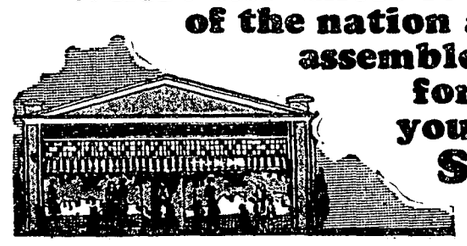

Come in and see this wonderful MODERN kerosene stove. Let us demonstrate it.

URGES BETTER STAPLE.

Studies now in progress in the Division of Cotton marketing on the grade and staple of American cotton indicate that cotton growers are now producing cotton of the various staple length in proportion to domestic consumption says W. B. Lanham of the Bureau of Agricultural Econimics, U. S. Department of Agriculture. They are producing a preponderance of the shorter staple lengths which, of necessity, compete with the short cotton produced in foreign countries, he says.

"American cotton farmers, like the producers of all other commodities, are presumably interested in growing the kind of cotton which they believe will return to them the greatest net profit. Since there is good mill demand for cotton around one inch in staple, it is reasonable to suppose that an increased production of these lengths would return enhanced profits to many growers."

Of the 14,187,000 bales of cotton which the Bureau of the Census reported as having been ginned from the crop of 1929-30, up to January 16, only about 1,650,000 were 1 to 1 1-32 inches in staple length, according to Mr. Lanham. If the staple lengths from 15-16 to 1 3-32 inches, inclusive, were grouped together, they would represent only about one-third of the entire production. More than half of all cotton produced was 7-8 of an inch or shorter. Inch cotton represented only a little more than half as much as did 13-16 inch cotton. It should be borne in mind, he says, that cotton less than 7-8 of an inch in length is not tenderable on future contracts.

"In considering the reduction," Mr. Lanham asks, "should we not particularly stress the need for reduction of short-staple production?

"It should be encouraging," he says, "to recall that production of cotton around an inch in length is not restricted to a few limited areas in the Cotton Belt. The studies by the Division of Cotton Marketing show that some inch cotton is being grown in practically all cotton growing sections. There must be, therefore, some other explanation for the production of such large quantities of short-staple cotton.

"Individual growers receive little encouragement to produce anything but the shortest cotton so long as buyers merely roughly average the grade and staple length and buy on this average. So long as this practice prevails, there is little hope that growers will plant varieties producing superior staples. They feel that very short-staples varieties produce more pounds of lint per acre than do varieties producing lint an inch or longer in staple.

"Buyers commonly pay for cotton on the basis of the average quality marketed at a given shipping point. Studies indicate that the average price received does bear some relation to the average quality produced in that district. For insance, recent studies in Texas show that cotton produced at Henderson, Tex., averaged about 1-16 of an inch shorter than that produced at Hillsboro, Texas. The average price received by the Henderson farmers was about $5 per bale less than the price to Hillsboro farmers."

At the present time, says Mr. Lanham, the difference in price between middling 13-16 and middling 1-inch cotton is $5 to $10 per bale on the spot market.

Ancient saying: "We can't afford it."

JUST FOLKS

THE CURE

When I was young and very proud
Before disdain my head had bowed
Or failure floored me flat;
Before I'd gathered common sense
From many a sad experience
Or learned where I was at,
I fancied none on earth could be
Superior to little me.

With such notions in my head
I wooed the girl I later wed,
Serenely self-assured.
I'd still to know the jolt and jar
By which most youthful boasters are
Of self-importance cured,
Not had it yet occurred to me
That I had faults which some might see.

One evening late I begged of Nell
Her father's views of me to tell,
And what of me he'd said.
She gave me back a falsehood white
"I'm sure he thinks that you're all right,
And bound to get ahead."
Then snuggling closer to my side:
"I'm sure he likes you," she replied.

At midnight, when the world was still
Her father came, as fathers will,
To haste his daughter on.
And thinking I was on my way
In thundering voice I heard him say:
"Has that young idiot gone?"
I left as quickly as I could,
But I had learned just where I stood.

UNCLE SAM POLICEMAN.

Charges that federal prohibition enforcement is lax and the recent assertion of Chairman Wickersham of the Law Enforcement Commission that enforcement of prohibition compares favorably with the enforcement of other federal laws have brought under public scrutiny all police activities of the federal government and the extent to which the federal government has gone in for policing and law enforcing.

The police department of the national government is chiefly concerned with the liquor, narcotic, postal, white slave, anti-trust, immigration and revenue laws. For enforcing obedience to these laws it maintains a large and costly police force. And with what success?

Immigration authorities admit that thousands of aliens are smuggled into the United States each year and that hundreds of thousands of men and women who illegally entered the country are living here undetected.

Smuggling of goods to escape duties have been so successful that the diamond industry of the country found it easier to compete with foreign diamond merchants without benefit of duties than with the smugglers who were forced out of business by placing diamonds on the free list.

That the anti-trust laws, postal laws, white slave and narcotic laws are flagrantly violated is a matter of common knowledge, efforts of inspectors, agents and the department of justice being largely unavailing. For years the government has been trying to break the dope traffic and still it flourishes, although considerable progress has been made among certain classes of society. As for the tax laws, the number of income-tax evaders being fined is a fair barometer of the disrespect for law in this field.

MUSHROOMS AND FIRE.

If a few people become ill or die from eating poisonous mushrooms, public opinion is aroused and manifests itself in demands for mushroom inspection, prohibition or whatnot.

Yet if a hundred people are burned to death in a fire which could have been easily preventable, the nation hardly give a second thought.

It is a parallel case to the old newspaper dictum: "If a dog bites a man, that's not news: but if a man bites a dog that is news." In one instance the public is appalled mainly because of the unusualness of the agency of death. We have come to regard fire, to the contrary, as being usual and unavoidable.

This is a tragic situation. Every year thousands of people lost their lives, to say nothing of the hundreds of millions of dollars worth of property, because of carelessness or ignorance. Fire is a menace to every citizen.

If the death of a person from poisoned food causes a nine days' wonder, the death of thousands every year from fire should create a great public movement to remove the danger.

The fire hazard in Corsicana is being greatly reduced each year. Such a condition is not a happen so. It has been brought about by an educational campaign sponsored by various agencies in the city. Every citizen should aid wholeheartedly in the fire prevention campaign.

POLITICS MUST YIELD

Governor Fisher, of Pennsylvania, who is learned in practical politics through close and long association with them, warns the business man that he "can no longer afford to delegate to the professional politician the management of public affairs."

This is not a new thought, but is is one that is coming more and more persistently and insistently to the front. This is due not so much to mental and moral deterioration among politicians as to the increasing complexity of public affairs. If there is less efficiency in public office, the real explanation is that the nation has arrived at that advanced stage in its development where many public offices demand executives of real ability.

Pennsylvania's chief executive wisely explains that he does not assert that politics can be or ought to be ignored, but that he does believe that, where political expediency conflicts with good government, politics must yield. He might have added with equal truth and force that the country is rapidly coming to the place where, when political expediency gets in the way of a proper administration of public affairs those responsible for that particular type of politics sooner or later are forced to pay the piper.

Everywhere there is a demand for better business in government, and every taxpayer, hard pressed by the load of taxes he is called upon to bear, naturally is taking more interest in the particular brand of politics under which public affairs are administered. In getting out the vote the only thing more effective than high taxes is a threat of higher taxes.

"Jake" has been relieved of all responsibility of the epidemic of paralysis according to the prohibition enforcement department. It was isopropyle. My, what a name for a beverage. No wonder it caused paralysis. The average man can't pronounce it much less drink it.

The man who rushes into trouble usually hobbles out on crutches.

When one man beats another man's game it encourages a lot of easy marks.

WHERE OPPORTUNITY BECKONS

Some people are forever complaining that none of the big or little opportunities come their way. They hear of a neighbor who got a real bargain in a used automobile and wonder why his chance had not been theirs. And when a neighbor shows them a bit of furniture or other household article he had picked up for a fraction of its real worth and they again wonder why others are favored over them. Thus they carry on their lamentations and self-sympathy throughout the whole catalog of human wants and possessions.

Paradoxical though it seems, these men and women who covet the opportunities offered to and grasped by others could find the secret of the other fellow's good fortune in the newspaper read by them both. That secret is the classified advertising columns. It is there that the golden opportunities are offered and found. The "want ad" page is the mecca for those who have golden opportunities to offer and for those who wisely hunt their "acres of diamonds" at home.

If the store with its show windows, glass cases, counters and open doors can not do business without newspaper advertisements, how can the seller and the buyer of the used article expect to "do business" without advertising? The "want ad" or classified advertisement is the show window and counter for the private citizen who has something to sell or wants to buy something the other citizen has.

FRUITLESS ZEAL

Political radicals seeking to "overthrow" the American government that they may try out their own ideas on government are wasting their time and money and bring upon themselves fruitless suffering and mental perturbation. All this parading, picketing, sign painting and head-cracking will go for naught.

Perhaps it is because they cannot sense the fallacies of their own political theories that they do not see the futility of trying to convert the rank and file of Americans. There are a number of reasons why the thing cannot be done.

Chief among these obstacles to the socialization or communization of the United States is the American's inherent intolerance of another's political opinions. A democrat can no more accept a republican's viewpoint than a republican can understand the socialist. And to this day the failure of the rest of the world to adopt the American system of government lock, stock and barrel remains a mystery to most Americans. There is only one tenable system and that is theirs. This intolerance of another's government is stronger than intolerance of another's religion with the rank and file.

Silliest of the fears of the chronically hysterical is the fear of revolution and a Red Terror on American soil. Except in times of general unemployment the communists cannot muster enough malcontent to stage an interesting parade.

THE DOUR SCHOOL.

What makes a young man suicide?

Two to one it's the advice of an older man. And the same holds good for young women and their older sisters.

When young people sit indoors and mull over the dead and gone theories of older folk who cared to live only to write about their ideas instead of trying them out in practice, they began to brood on the thoughts that lead to self-destruction.

The older women tell the younger ones, "marry money," and the older men advise idealistic and hopeful youth, this advice takes the meaning out of life. It sets them brooding.

Young people who indulge in the harmless pleasures of life do not snuff out their own lives. They find life sweet and have no time to think of death. Those who commit suicide first sit indoors at night and moon over a lot of meaningless junk written by old philosophers for old philosophers. Dipping deep into the depressing and hopeless philosophy of old age they are led to believe life utterly futile.

Perhaps life, for most people, is futile and filled with more sorrow than happiness, but what of it? Mooning over the matter and ending up stretched out on a bed with all the chinks of the room stuffed up and the gas turned on isn't going to change or help matters.

In sterner and more primitive times the oldsters were told to go jump in the river when they had passed their period of usefulness. Modernity cannot quite do that, but it can stop its ears to the dour advice of those who have abandoned all hope.

The way some families keep up a front imposes a great strain on the shops they deal with.

Taking a census is expensive. Why not just gather up the sucker lists?

GIANT SPECIALLY BUILT TRUCK SHOWN BY FRED ALLISON

A specially built and equipped truck was exhibited in the business section of Corsicana Tuesday afternoon by Fred M. Allison, Corsicana drilling contractor, designed and constructed in his shops on North Beaton street for use in the Seminole oil fields of Oklahoma.

The equipment was placed on a five-ton International truck chassis, and is one of the most complete units for heavy hauling ever put into service. The only woodwork in the truck is the flooring of the bed and the two pieces of 4x6 that form a cushion between the frame and the bed.

Specially designed for hauling the heavy 125 horsepower boilers used in the Oklahoma fields, the truck and trailer are built for heavy duty and the equipment was installed for the convenience in handling these unweildly pieces of machinery.

A heavy duty winch supplies the power for loading, and the loading derrick is carried in a special holder under the bed of the truck; each side of the truck is squipped with special bars for attaching snatch-blocks; a section of heavy pipe attached on the rear of the truck makes a natural skid for loading and unloading equipment.

Equipment Is Unique.

Two tool boxes extending the full width of the truck bed offords ample space for storing chains, jacks, boomers, crowbars and other essential aids. A special design tire carrier is mounted on one side of the truck to carry the spare as conveniently as possible.

The frame has been specially braced with angle iron and steel I-beams so that the load will be carried on a quadruple framework. The truck is powered with a Hall-Scott overhead valve engine, capable of developing 150 horsepower; and the vehicle travels on ten 40x8 tires.

All of the designing and construction on the truck was done in the Allison shops; the cost of the new vehicle was estimated at $10,000.

Brakepower for the truck is supplied by a system of four-wheel mechanical brakes. A special design steering gear makes the huge truck easy to handle. The truck has seven gears for traveling, beside the special clutch for handling the winch.

PECAN SPECIALIST BE HERE THURSDAY FOR DEMONSTRATION

J. F. Rosborough, horticulturist for the extension service of Texas A. & M. college will be in Corsicana Thursday morning to assist in a pecan demonstration according to an announcement made on Wednesday by Henry Gentry, Navarro couty demnostration agent.

The pecan school will be held at the chamber of commerce building at 10 o'clock Thursday morning, and various methods of budding and propagating necan trees will be discussed. Later in the day a demonstration will be staged at the orchard near the L. R. Nolen apiary on North Beaton street.

All Corsicana and Navarro county people interested in pecan culture are urged to attend the meeting Thursday.

DEMOCRATS TAKE ALL KANSAS CITY OFFICES TUESDAY

KANSAS CITY, March 26.—(AP)—In the first test of strength since the 1928 Hoover-Smith fight, Kansas City democrats, led by Bryce B. Smith, millionaire bakery executive yesterday routed republican candidates for all municipal offices.

Approximately 146,000 voters, the greatest number ever to visit the polls in a city election, ended all vestige of republican power.

Smith was elected mayor by an unofficial majority of 23,726, defeating George E. Kimball, lawyer. Democrats also elected eight councilmen and two municipal judges. Previously the democrats held a slight working majority in the council.

Shouse's Statement.

WASHINGTON, March 26.—(AP)—Chairman Jouett Shouse of the national Democratic committee, today characterized the Democratic mayoralty election victory in Kansas City as showing "that the swing against the Republican administration is as pronounced in the west as in the east."

Constipation Troubles

"I HAVE used Black-Draught as a family medicine for a good many years," says Mrs. Sallie Laughrun, of Huntdale, N. C. "I have found it an excellent remedy for constipation and the troubles that follow it. I have suffered frequently from gas pains, and when I am bothered that way I begin at once to take Black-Draught. Relief follows quickly.

"I give Black-Draught to the children when they are constipated, and it is not long until they are running around again."

HAM REVIVAL IS OPENED WEDNESDAY DESPITE WEATHER

STATEMENT OF PURPOSE OF MEETING MADE AND CRISIS CHURCH FACES STRESSED

Statement of the purpose of the meeting, the crisis that the church is facing today, and the relationship existing between pastor and evangelist were made at the initial meeting of the Ham campaign held Wednesday evening in the big cotton warehouse located at the corner of Sixth avenue and Seventh street. In spite of the inclement weather, there was a good sized audience present for the meeting.

Following a short service, led by Earl Rodgers, the invocation was pronounced by Rev. Tom Lenox, pastor of the First Christian church.

Rev. J. H. Williams, pastor of the First Baptist church, introduced the evangelist.

Rev. Ham read several verses from the sixth chapter of Ephesians and used them as the basis of his discussion of the great issues of the campaign.

The church today is not wrestling against flesh and blood but against Satan and his cohorts, the speaker declared, who continued by stating that the fight was not a recent one, referring to several portions of the old Testament where were recorded such conflicts. As soon as the Lord, through a new convenat given to Noah promised to send an individual into the world to show people the way to eternal life, Satan and his emmisaries have been fighting that and have caused every method known to thwart that decision, the evangelist stated.

Church Faces Crisis.

The church of today is facing one of the greatest crises in history, Rev. Ham said, this being clearly brought out by the action of all denominations uniting to fight the common enemy, Satan, who for the first time is directing his assaults at Jehovah through the teaching of false prophets.

There was never a period in history that preaching who so forecful and convincing, backed up by the discoveries of scientists which verify truths of the Bible, the speaker stated.

The meeting has as it's primary purpose to make disciples of men and women, build up the church, Rev. Ham said.

The relationship existing between the evangelist and pastor was described by the speaker as being the same that existed between the family doctor and specialist, who is summoned by the family doctor for consultation and perhaps an operation, which after completion, ends the service of the specialist, who departs leaving the work of rebuilding the strength and health of the patient to the trusted medical advisor of the family. So, Rev. Ham declared, the evangelist comes into the community, does his specific task and departs, leaving the pastor in charge of the field to help the congregation benefit from the visit of the evangelist.

At the conclusion of the meeting, it was announced that no morning service would be held on Thursday but regular service at the evening hour.

U. S. and Canada May Halt Wheat Trade Rivalries

WASHINGTON, March 27.—(AP)—Semi-official sources reveal a growing sentiment in the United States and Canada to control the position of North American wheat in the world market, principally through elimination of competition between the two countries.

Chairman Legge of the federal farm board says there has been informal discussion of the subject by American growers and the Canadian wheat pool, but that communications have taken the form of queries as to what could be done rather than definite proposals. It is assumed the two countries would, in effect, divide the field as other big competitors in various enterprises have done—each agreeing not to encroach on the other's business.

Admittedly, it would be a difficult job to set up any other working agreement. Canada's farmers are virtual pioneers, producing for the most part one type of wheat. American farmers present a hodgepodge cross-section in comparison, growing different types of wheat and operating under widely varying circumstances of finance, production and transportation.

Canadian wheat farmers have a decided advantage in lower rail rates and their wheat commands a higher price than American wheat in British markets. There is a difference in favor of Canadian wheat in the grading systems of the two countries and Canadian wheat in Canadian markets is not closely docked for the appearance of weed seeds and other foreign material as American wheat in American markets.

A perspective of possible co-operation between the two countries gives considerable attention to the development of universal standards for North American wheat and strict grade regulation.

It probably would call forsolution of the border situation rising from the fact that farmers in Montana and contiguous states can sell wheat in Canada, paying the 12 cents a bushell duty, and make more money than by selling inDuluth. The Winnepeg market persists in staying above the markets of the United States despite the 42-cent American protective tariff.

QUESTIONNAIRE WAS DISCUSSION SUBJECT FOR HI-Y MEMBERS

MOTHER AND FATHER BANQUET SCHEDULED NEXT WEDNESDAY NIGHT

Enthusiastic discussions of a questionnaire recently given the Hi-Y club members, constituted the club's regular bi-monthly luncheon program at the Y. M. C. A. on Wednseday night, with Leldon Middleton as chairman of the program committee, and directing the roundtable talks.

After the invocation by Cy Wilson, and the roll call and minutes were read, O. F. Allen, junior high school principal and club sponsor announced the "Mother and Father banquet" will be held in the educational building of the First Methodist church next Wednesday night, April 2, at 7.30, and urged the members to secure their reservations before Friday night. He said the club's activities will be terminated with the annual "Sweetheart's Banquet," Friday night, April 18.

Chairman Middleton read the questionnaire; generally discussed the questions; and invited other members to express their opinions on the topics. Lively talks followed, among whic the following took part:

Nelson Ross, Clayton Hickerson, Billy Stamps, J. W. Hornbeak, Mitchell Boyd, Albert McElwrath, J. C. Roe, Jimmie Childress, Maurice Tankersley, David Bergin, O. F. Allen, George Milburn, Ralph Pierce, Neyland Inabit, Frank Caldwell, Will Hashop, Jack Hughes, Joe Hashop, Fred Bookout, Ralph Guess, Thomas Spikes, and Robert Taylor.

Ralph Pierce dismissed the meeting with the benediction.

WOMAN IS CHARGED WITH POISONING OF HUSBAND IN 1928

FORT WORTH, March 27.—(AP)—Two years after Bass Gambrell, Greenville painter and paper hanger died, his wife today faced charges of murder for his death. She was arrested here last night and returned to Greenville by Sheriff L. L. Porter of Hunt county.

She made no statement. Mrs. Gambrell was employed here as a saleslady in a department store since she came to Fort Worth more than a year ago.

Reports from Greenville said Gambrell's body was disinterred several weeks after burial and a chemist's analysis revealed poison in the viscera.

DELEGATES ELECTED FROM FIRST CHURCH TO DISTRICT MEET

Following the regular mid-week prayer services at the First Methodist church Wednesday night, the body went into a church conference and elected the following delegates to the district conference that will be held in Coolidge two days, May 5 and 6. Dr. Bergin was authorized to name the alternate delegates.

The delegates follow: Boyce Martin, S. W. Burdine, A. L. Thompson, B. Harwell, J. N. Royall, R. J. Jackson, Mrs. J. W. Bergin, Mrs. J. W. David, T. J. Walton, Mrs. J. N. Royall, Mrs. W. L. Holman, Mrs. A. E. Haslam, Mrs. Kelley McKeown, Mrs. J. S. Murchison, L. F. Flynn, E. D. McCarver.

A special committee was also named to decorate the church for Easter follows: Miss Ethel Mae Tatum, Mrs. A. L. Thompson, Mrs. Harry Clowe, Mrs. J. S. Murchison and Mrs. Hallie Steeley.

Archie Carraway director of religious education acted as secretary, Rev. Carraway also explained the various courses that will be studied at the standard training school starting Sunday and urged those present to attend the school and interest others.

He also explained about the conflict in the standard training school and the Ham revival stating that the school had been dated in order not to conflict with the meeting which was to have started about April 5. All arrangements as to teachers, etc., had been made for the school to start on the 30th and when it was learned that the meeting would start in March also, it was too late to make other arrangements in regard to the school.

PECAN MEETING IS POSTPONED RESULT INCLEMENT WEATHER

Several pecan fanciers gathered at the chamber of commerce on Thursday morning for instruction in budding, grafting and general propagation of pecans to find that the heavy rain had prevented a number from reaching the conference including J. E. Rosborough, horticulturist for the extension service of Texas A. & M. college.

The meeting was rescheduled for 10 o'clock Friday morning at the chamber of commerce, after the horticulturist had notfied Henry Gentry, county demonstration agent that he would arrived in Corsicana by train from Tyler in time for the meeting.

The original plan for the meeting will be followed out with a lecture on pecan culture at the first of the meeting with a practical demonstration later at the L. R. Nolen apiary on North Beaton street.

The Happy Family

THE HAPPY FAMILY is the one that is free from financial worry. Freedom from financial worry comes only when there is a surplus laid aside for use in case of necessity—a surplus that will provide for the future—more comforts for father and mother; good educations for the children.

With a moderate income, any family can arrange its expenditures to permit laying aside a definite sum each month in a savings account.

Begin now. Build a reserve that will take financial cares from your home.

POSTPONED EVENTS WILL BE HELD NEXT SATURDAY AT FROST

DOWNPOUR TURNED TRACK AND FIELD INTO QUAGMIRE; LITERARY EVENTS HELD

BY DELMORE OLSEN
(Daily Sun Staff Writer.)

FROST, Mar. 22.—A driving rain, which started here Friday afternoon shortly after 3 o'clock, caused an abrupt cessation of all athletic events that were in progress in the seventh annual Navarro County University of Texas Interscholastic League track, field and literary meet. The downpour, lasting approximately an hour, transformed the track and field into a quagmire, and it was announced by Charles McMichen, director of athletics, that the meet would be postponed until Saturday, March 29th, at which time all events rained out would be resumed and carried to completion

Literary events were completed Friday evening, in spite of the heavy downpour, and results were announced late Saturday afternoon by W. V. Harrison, director general of the league, and superintendent of the Frost schools.

Only one athletic event had been completed, that was girls volleyball, in which Currie was declared to be winner.

In the qualifying track events for Class B schools which were in progress at the time of the rain, the chief center of interest was the great performance of Bourland, one man track team representing the Barry school, who had captured first place in the 100 yard dash, 220 yard dash and 440 yard dash. According to a report made by the official timer the Barry sprinter had stepped off the century in ten seconds flat, and had equalled that record in the220 by completing the dash in 22 seconds.

To Be Held Next Saturday.

Girls' indoor baseball, boys' indoor baseball, tennis, both boys and girls; will be resumed next Saturday morning, that is, if it does not rain again, at the point where the downpour halted activities Friday afternoon.

Results of contests both literary and athletic that were completed before the rain follows:

Girls Volleyball—Currie, first; Wilson, second; Bazette, third.

Extemporaneous Speaking—High school division—Kenneth Copeland, Corsicana, first; Ermon Richmond, State Home, second; R. T. Gowan, Montfort, third.

Spelling Contests—High school division—Senior: Frost, Currie, Corsicana; Junior, Blooming Grove, Frost and Barry, tied for second, Emhouse; Sub Juniors, Kerens, Frost, Currie and Emhouse, tied for third place. Rural school division—Senior, Bazette, Wilson; Junior, Bazette, Emmett, Headquarters; Sub-Junior, Headquarters, Emmett, Bazette.

Arithmetic Contests — Kerens, first; Frost, second; Providence, third.

Picture memory contests:' Kerens, first; Frost,- second; Barry, third; Dawson, fourth Headquarters, fifth.

Class B Track.

Qualifying events were in progress, with the finalists in the 100 yard dash, 120 high hurdles, 220 yard dash and 440 yard dash decided.

Interest in Better Homes Campaign

TEAGUE, March 25. —(SP)— Much interest is being attracted in the "Better Homes Campaign" in Teague with Mrs. E. H. Tirey as president of the organization.

Last week more than one thousand plants and one hundred and seventy-five packages of flower seeds were distributed.

Most every home is showing evidence of home planting. Even the colored population is enthusiastic over better homes and curroundings.

Noted Revivalist Will Open Series Services Tonight

DR. M. F. HAM.

Dr. M. F. Ham, Bible teacher, lecturer and revivalist will arrive in Corsicana this afternoon and begin a series of meetings tonight in the big cotton warehouse on East Sixth street. Mr. Ham has just closed a successful religious campaign in Lakeland, Florida. Mrs. Ham and their two children will be with her husband for a few days after which she will return to their home in Louisville, Ky. Mr. Ham has held successful campaigns in many Texas towns and will doubtless have a great hearing in Corsicana. Mr. Earl S. Rodgers who's home is in Mineral Wells, Texas, will have charge of the singing. The meeting will be held each day at 10 a. m, and 7:30 p. m. except there will be no day service Saturday. Plenty of parking room has been provided near by. The big space just back of the building next to the railroad track has been graded and put in shape, also the space between the two warehouses has been put in shape and lights have been put there so to make it easy to park right up against the meeting house and have the car cared for and protected. Mr. S. J. T. Williams has been in Corsicana for the past two weeks looking after arrangements. The first delegations will be Thursday night at which time Hubbard and Dawson will send delegations to the Corsicana meeting. The Hubabrd delegation will seek to get Mr. Ham to come to that place for a meeting.

VAN'S THIRTEENTH WELL LARGEST YET REPORTED IN FIELD

Van, Mar. 26.—Thirteen proved to be anything but an unlucky number for the Van oil field, for Pure Oil Company's A. R. Tunnell No. 1 came in at 12:30 p. m. Tuesday as the field's thirteenth well without a dry hole and is estimated to be the largest to date. Estimates were that it would do all the way from 10,000 to 40,000 barrels a day.

Drillers went approximately 100 feet deeper in the sand than in any of the previous wells. Everything was in readiness to handle the oil when the well was brought in under perfect control.

This well is located half a mile southeast of the discovery well and extends production 1,000 feet to the cast.

Reports Tuesday from the White well, a mile to the north, is that corings have shown an oil sand said to be richer than any yet found in the field.

Four new locations were announced Tuesdap, all being offsets to Pure Oil Company No. 1 R. L. Wells, one-acre lot test, down 1,000 feet. All will necessitate moving buildings in the Van townsite, one on the east, one across the boulevard south and two north.

BAND CONCERT TO BE GIVEN SUNDAY APRIL 6, AT PARK

Weather conditions being favorable, the Corsicana high school band will be presented in its first concert of the season Sunday afternoon, April 6, at the City Park. For this first concert the director, Joel Trimble, has planned to combine the State home band, and local bandmen, with the high school band, which will total 100 musicians.

The program will consist of overtures, selections, and popular airs. One special number is to be rendered as a dedication to Fred Berry, a valued member of the State Home band, who was recenty killed. The number is a symphonic paraphrase based on the theme of the well known hymn, "Abide With Me," and makes a most beautiful number for a brass band.

The concert will be given in the pavilion at the park, and the band expects to play before a large audience.

Caveman Stuff Ends Fatally In Texas Town

McALLEN, March 25.—(AP)—Refusal of a senorita to accept a suitor today had resulted in the death of the suitor, the serious wounding of the girl and her brother and the filing of murder charges against her father.

The suitor, Jesus Argonez, came to the home of Josephine Casanova to take her by force after she had refused to marry him. When he grabbed the girl's arm, her brother, Reynaldo, fired a shot gun at Argonez and hit his sister. Argonez then shot Casanova with a pistol.

The father, Margarito Casanova, ran to the scene, grabbed Argonez' gun, and unable to make it fire, drew his knife stabbing the man several times.

BLACK SPIRITED AWAY TO PREVENT FEARED VIOLENCE

OFFICERS HAD GONE TO ARREST ANOTHER NEGRO; SLAYER IS WOUNDED

TEXARKANA Ark., Mar. 26.—(AP)—Rufus Thompson, 34-year-old negro, today shot and killed Lucian Adams, 28, Miller county deputy sheriff and former Texarkana high school star athlete, when Adams attempted to arrest Thompson's brother-in-law.

The officer's companion, Dick Card, 28, shot the negro three or four times with an automatic pistol after Adams had been slain, but did not kill him.

Sheriff Flett and Deputy Sheriff Everett Mills placed the wounded negro and his brother-in-law in an automobile and hurried them away to guard against mob violence. The party was reported to have crossed Red River a few minutes later.

Adams and Card had gone 13 miles north of here to arrest Thompson's brother-in-law, Roland Chatham, 21, on a stove theft charge.

It was though officers would lodge the negro in jail at Prescott, Ark., or take him to the state penitentiary at Little Rock, Ark.

Cheatham was a former tenant on Adams' plantation. He was alleged to have stolen a stove when he left the farm last week to live with his father.

Officers procured a warrant for his arrest and today went to the home of his father, General Cheatham, 60. Adams said he had come after Roland. The officer and the elder Cheatham started arguing, and the negro was knocked down when he made a move toward his hip.

Roland Cheatham then threw himself upon the deputy sheriff, and Adams struck the younger negro with his gun. Rufus Thompson ran out of a house across the road. As Adams turned to face him, he shot the officer over the right eye with a shotgun.

General Cheatham was arrested later. Officers declined to reveal where he was being held.

MEXIA ROTARIANS ACTIVE

MEXIA, March 25.—(SP)— A committee headed by Pete Urschel has been appointed by the Mexia Rotary Club to get a large delegation of Mexia Rotarians to attend the district convention at Marshall April 28 and 29. Other members of the committee are E. T. Butler and Marvin Webb.

CORSICANA NATIONAL BANK BOUGHT PART COUNTY ROAD BONDS

BELIEVED SUFFICIENT SUM ON HAND FOR WORK DURING PRESENT YEAR

The Corsicana National Bank Tuesday afternoon purchased 2 issues of the bonds in consolidated road district No. 1, amounting to $152,000 at par and accrued interest, less one per cent, at the meeting of the Navarro county commissioners court.

With the sale of these bonds, there remains $1,015,000 of the original issue of $2,278,000 bonds voted in consolidated road district No. 1 in 1927 for the construction of a system of hard-surfaced roads.

Clay Nash, county judge, stated late Tuesday afternoon that with the sale of these bonds, it was the opinion of the commissioners that sufficient money was on hand now for the entire needs of the road building program, both lateral and cardinals, in the district during the remainder of the year.

Considerable progress was also reported on the securing of right-of way for state highway No. 31 from Chambers creek eastward toward the eastern boundary of the district two miles east of Powell following a conference between the property owners along the route and the commissioners court Tuesday.

RESULTS OF MEET IN FREESTONE ON FRIDAY; POSTPONED

TEAGUE, March 26.—(SP)—In the county athletic meet which was to have been held in Teague last week-end, but due to inclement weather a large part of it was postponed, all preliminaries in tennis have been played.

In girls' singles, Teague defeated Donie and Dew defeated the Wortheam team, leaving Lane of Dew last year's county and district champion, and Presley of Teague in the finals, with Lane greatly favored. In girl's doubles, Donie defeated Teague, while Wortham defeated Dew, thus leaving Donie and Wortham in the finals.

In boys' singles, Fairfield defeated Wortham and Teague defeated Dew, and Donie drew a bye. Thus, so far Teague, Donie and Fairfield are in the finals. In the doubles for boys, Teague defeated Donie and Fairfield defeated Wortham, leaving Teague and Fairfield in the finals.

In volley ball Fairfield defeated Wortham, Teague defeated Burleson, and Donie defeated Kirven, thus leaving Fairfield, Teague and Donie in the finals.

Sub-junior spelling: Teague, O. M. Roberts, first; Streetman, second; Donie, third; Rural schools: Burleson, first; St. Elmo, second; Mt. Zion, third. Senior spelling: Teague, first; Wortham, second; Donie, third. Arithmetic: Central grammar school, Teague, first; Teague high school, second; Freestone, third. Junior spelling: Teague high school, first; Burleson, first; Coton Gin, second; St. Elmo, third. Picture memory: Teague, first; Wortham, second.

Another Body Found In Waters of Pecos; Third in Six Weeks

FORT STOCKTON, March 26.—(AP)—Another murder mystery confronted Pecos county officials today as they sought identification of the body of a 35-year-old man, third murder victim recovered from the brackish waters of the Pecos river within the last six weeks.

The nude body of the man, a bullet hole through the back, was recovered yesterday by fishermen from the river 25 miles from here, near Imperial, about half a mile from the place where the bodies of a woman, about 35, and a 12-year-old girl, were discovered on Feb. 21. The man's body had been stripped of clothing, and nothing which to identify him was found in the vicinity. The body was held today in a mortuary at Fort Stockton.

Sheriff W. P. Rooney and state rangers who investigated said the man could not have been dead more than two days.

The murder victim had grey eyes, was of brunet type with hair turning grey. His face was closely shaven, and his hair had been neatly trimmed. A small pit scar on the left cheek and a large scar on the left side of the neck were the only marks on the body which might afford identification.

Pecos county and seven neighboring counties posted rewards of more than $1,000 for apprehension of the slayers of the woman and girl, and Sheriff Rooney predicted other rewards would be posted in the latest case, which he believed might have some connection with the other two deaths.

MAN ACCUSED IN GIRL'S CONFESSION RETURNED FAIRFIELD

FAIRFIELD, March 26.—(AP)—Tommie Dodd, 30, was held here today for questioning in connection with the latest story told by Miss Wilma Jones, 23, concerning an alleged attempt to burn her to death last Wednesday night when she was bound to a bed in a hotel room and the mattress fired.

Dodd, Miss Jones and Dodd's mother, Mrs. Sarah Jane Dodd, 50, all were charged with forgery in connection with a $250 check to which the name of G. S. Moore, Oakwood business man, was signed.

Immediately after Miss Jones made her second confession, Sunday night, in which she exonerated Moore of the attack on her, Dodd was taken to Mexia and held in jail, but was returned here last night.

County Attorney W. V. Geppert said Dodd would be questioned today. State rangers already had concluded Moore had no connection with the fire here last Wednesday night, and Geppert announced charges against Moore would be dropped. Examining trial for the girl, he said, would be postponed several days.

Ranger Sergeant J. B. Wheatley and Ranger R. M. Gault had not cast aside their theory that the fire was part of an attempted blackmail scheme against Moore.

FUNERAL SERVICES HELD WEDNESDAY FOR LONG-TIME RESIDENT

Funeral services for R. D. Caton, aged 69 years, long-time resident of Corsicana and Navarro county, who died at his home in the northeastern portion of the city Tuesday morning at 9 o'clock, were held Wednesday afternoon at 2 o'clock from the family home with interment in Oakwood cemetery. He had been in ill health for some time.

The funeral was conducted by Revs. Burgess and Aron.

Surviving are his wife, three sons, R. T. Caton and T. B. Caton, both of Corsicana, and W. H. Caton, Houston; three daughters, Mrs. Katie Pearl Tate, Dallas; Mrs. Myra Eckerman, Corsicana, and Mrs. Ida Mae Dempsey, Arizona, and other relatives.

The funeral was directed by the Sutherland Funeral Home.

Pallbearers were Henry Cooper, W. R. Dunn, J. W. Fowler, A. R. Lewis, John Darwood, S. Hamilton, D. L. Slone and Luther Cole.

TEAGUE TO HAVE REVIVAL

TEAGUE, March 25.—(SP)—According to information received from officials there will be a revival meeting held at the First Baptist church here beginning April 13. The name of the preacher who will conduct the services ha snot been announced.

PLANTER KILLED IN BATTLE WITH FEDERAL OFFICER

BAD BLOOD HAD EXISTED BETWEEN MISSISSIPPI MAN AND PROHIBITION AGENT

CLARKSDALE, Miss., March 26.—(AP)—The fatal wounding of J. L. Doggett, 57, prominent lumberman and planter, in a gun fight with E. S. Chapman, deputy prohibition administrator for northern Mississippi, was investigated today by federal and state authorities.

Charged with murder, Chapman was held at an unnamed place. Officers said feeling against him was high.

In the shooting, which occurred late yesterday, at least a dozen shots were fired. Doggett was struck three times, a bullet passed through Chapman's coat collar.

Police said feeling between Doggett and Chapman reached an acute stage in January during the trial of A. B. Brister, prohibition agent, on a charge of possession and sale of whiskey. Doggett's name figured in the trial. The agent was acquitted.

Will Not Be Suspended.

WASHINGTON, March 26.—(AP)—E. C. Chapman, assistant prohibition administrator from the northern Mississippi district who shot and killed J. L. Doggett yesterday, will not be suspended, because Assistant United States Attorney Sack reported to Prohibition Commissioner Doran today that Chapman acted in self-defense and was fortunate to be alive.

Personal Reminiscences of Jesus Marked Early Church

Not Theology, But the Story of Christ, Whom Many of Worshippers Had Known in Flesh, Dominated First Christian Gatherings---The King Makes the Kingdom.

By WILLIAM T. ELLIS

In the Florida hotel where I am sojourning for a few weeks there is a winsome lass of four, who has got into the habit of climbing on my knee after dinner and demanding a story. At first I told her of Little Black Jolo, and his jungle friends, whom another little girl used to love; but one evening I made up a tale of how Jolo rescued an imprisoned princess. Since then, Nancy will have only stories about the beautiful princess, until I am almost at the end of my inventive powers. But the incident is a parable of how the major interest crowds out the lesser: who wants to hear of a jungle boy or of jungle folk when there is a gorgeous princess to be talked about?

And who wants dreary discussions of theology and social ideals and ecclesiastical affairs when there is the warm, glowing, attractive and exhaustless figure of Jesus to present? A comprehensive look at the gospel narrative, such as this review calls for, brings to light again the central fact that this supreme story has to do with the life of the Man who was once a Babe. The deeper we dig into New Testament history the more wonderful seems the complete absorption of the earliest Christians in the personality of Jesus.

They have no creed, and no ritual and scarcely any organization; but all of their thought and conversation and activity centered in Jesus Himself. The preaching of the apostolic Story of His life. We cannot escape the conviction that a return to this first-century practice, and an engrossment in and exaltation of Jesus, would revitalize all of our day's Christian experience; and restore to us somewhat of the power and passion and purity of the Early Church.

This Vogue of Biography

Readers of current books know that this is the day of the popularity of biography. The interest must be very real to make possible the success of some of the recent ill-balanced and misinterpreted "lives." Evidently the public is avid for "human interest:" Why, then, are we not putting forth, in all of its compelling attractiveness, more of the Life that transcends all other lives? Nobody has yet written the full and final interpretation of the real Jesus; Who came as a Babe at Bethlehem, brother to every other babe that has ever gladdened a mother's heart; and Who grew to manhood in an artisan's home, touching our common human nature at every point with fellowship and understanding. There is more to Jesus than the most skillful pen has ever made clear. The greatest creators of deathless literature have paid tribute to Him; but even as they apostrophise His excellence, as Sidney Lanier did in "The Crystal," the reader is left with the feeling that "the half has not been told"—

"But Thee, but Thee, O sovereign Seer of time,
But Thee, O poet's Poet, Wisdom's Tongue,
But thee, O man's best Ban, O Love's best Love,
O perfect life in perfect labor writ,
O all men's Comrade, Servant, King or Priest,—
What if or yet, what mole, what flaw, what lapse,
What least defect or shadow of defect,
What rumor, tattled by an enemy,
Of inference loose, what lack of grace
Even in torture's grasp, or sleep's, or death's,—
Oh, what amiss may I forgive in Thee,
Jesus, good Paragon, thou Crystal Christ?"

The Kingdom and the King

Some kings have got their crowns and sceptres from the people over whom they have reigned; but in the case of Jesus it is the King who makes the Kingdom. Would you know more of the theme of the Kingdom about which the Sunday schools have been studying in this quarter's Lesson? Then get a clearer understanding of the King. A wise and lovely lady, richly endowed by nature and by fortune, said to me, shortly before she died, a few years ago, "My religion is just Jesus."

Gatherings of the first Christians were for the purpose of commemorating Christ. They were most eager to listen to those of the brethren who had known Him in the flesh. Oftener than we realize, there were those present who could contribute personal reminiscences: thus one had been among the five thousand fed by miracle; here was a disciple from Nazareth, a fellow carpenter; yonder brother had been in the crowd surrounding the house when the paralytic, borne of four and let down through the roof, was healed; to this side sat a venerable saint who had been in Bethlehem when the wirse men arrived; this shepherd, with the weather-beaten features, had heard Jesus proclaim Himself the Good Shepherd; one had learned about His boyhood from Mary's own lips; others had shouted "Hosanna!" at the Triumphal Entry; still others, who told their tale with tears, had seen the King on the cross.

Christ was no theological formulation to those earliest Christian assemblies, but a flesh-and-blood Jesus, whose very tones they remembered, and whose loving looks and gentle ways had all to be recalled, again and again, by affectionate mmeory. To them the King made the Kingdom.

"Crown Solomon"

When that great Baptist preacher, Dr. Wayland Hoyt, was alive he was called upon often to deliver his sermon, "Common Solomon!" It was based upon the incident in Israel's history when the succession to David's throne was disputed; and the friends of the rightful heir strategically forestalled argument and strife by crowning Solomon. So the solution of a soul's spiritual struggle is to crown Christ: to establish fealty to Him; *and, in positive devotion, thus settle* forever the problems of life. It is the enthronement of Christ that extends the Kingdom. Disputations concerning the character of the kingdom, and methods of organization and procedure are almost wholly futile: it is only when the King is accepted and exalted that the Kingdom thrives

Is this mysticism? Not a bit of it. No sense could be more practical. For what ails our distraught era is that a variety of clashnig wills and loyalties are rending people away from the one master allegiance. Insted of loyalty to the Divine will, obedience to our King, we have substituted lawless selfishness. Cloaked under various high-sounding names, our modern destructive and decadent philosophy is simply Do-As-You-Pleaseism.

What About Democracy?

Our press re-echoes with tales of lowlessness; but that which is back of lawlessness is simple, ugly, Garden-of-Eden selfishness. Prohibition is a problem only because so many people put self-gratification first in all their thinking. They are rebels against the throne-rights of law and of democracy before ever they are violators of any statute. The only kingdom to which they yield allegiance is the one of which their own epidermis is the boundary.

In a sense yet to be fully interpreted, democracy is inseparable from Christ's Kingdom. Only Christian nations have ever made any success of democracy; because major loyalty to the will of the King has kept them true to one another and to their lofty ideals of self government.

This truth runs deep. There can*not be democracy without Theocracy.* Brotherhood is impossible without Fatherhood. Before ever men can accept the profound obligations and restraints, the inspirations and inhibitions, of democracy, they must first have accepted the sovereignty of the King whose sway constitutes the Kingdom. Even the Church seems scarcely to realize that all of our pressing social and political problems actually depend for solution upon the acceptance of Christ and His will as the basic way of life.

THREE ARE KILLED WHEN BEERY CABIN BIPLANE CRASHES

LOS ANGELES, March 25.—(AP)—Wallace Beery's cabin biplane, in which the film villian expected soon to fly to Mexico City, today lay in ruins near Alhambra, Calif., where it crashed yesterday, bringing death to two men and a woman. Beery was not aboard the ship.

George Maves, 23, Beery's pilot, his wife, Cynthia Maves, and Lynn H. Hayes, 26, transport pilot and friend of Maves, were killed when the plane crashed and burst into flames after going into a tail spin at 500 feet altitude. It struck only a short distance from Valley Boulevard, one of the main highways south from Los Angeles. *Scores of motorists rushed to the* scene, but were unable to aid the passengers.

Witnesses said the plane apparently developed trouble shortly after taking off from the Burbank airport on a cruise over the San Gabriel valley.

FORMER RANGER AND HIS WIFE ARE HELD ON MURDER CHARGE

ALLEGED SLAYER HAD HELD SEVERAL PLACES AS STATE AND FEDERAL OFFICER

ORANGE, Mar. 25.—(AP)—Will C. White, police patrolman here, was shot to death today.

N. E. Perkins, former Texas ranger and ex-prohibition agent, and his wife were charged with murder in connection with the shooting.

According to reports to police, White was shot to death when he, in company with Leonard Carr, policeman, went to Perkins' store to investigate some "loud talking" there.

According to Carr, Perkins was *standing on the porch when they* came up.

"What's the trouble in there?" Carr said White asked Perkins.

"I don't know," Perkins was quoted as saying.

Carr said Perkins then asked him to go across the street and get some cigarettes. He said he did this, and on his return Perkins told him:

"Get Sheriff Pate Brown; I've just killed White."

He said White was lying on the ground. There were two bullet wounds in his body.

Mrs. Perkins, according to Carr, said that White opened fire on Perkins and missed him.

"I ran into the house," she is reported to have said. "I heard several shots. When I got back he (White) was dead."

Perkins also a former deputy sheriff here, and at one time was a member of the Orange police force.

White was 49 years old. He is survived by a widow and four children.

White was a brother of Sol M. White, former mayor of Orange.

Mexia Dairy Finance Corporation Names Set of Officers

MEXIA, March 25.—(SP)— The new Mexia Dairy Finance corporation, which is importing and selling Jersey milch cows to farmers on time payments, has completed its organization by election of officers.

B. S. Smith was elected president; F. W. Welch, secretary, and John H. Sweatt, treasurer. J. F. Maddox will be manager and selling agent.

The corporation has purchased 32 *head of young Jerseys, and is sell*ing them to farmers, who pay as they sell milk. A market for whole milk is provided in the chamber of commerce truck line to the Borden plant at Waco.

Andrew G. Steele, county superintendent, left Tuesday morning for Austin to confer with the state department of education of various matters pertaining to Navarro county schools. He will return Wednesday evening.

ADMONISHES LEGGE SHOW FITNESS FOR PRESENT POSITION

FARM BOARD HEAD TAKEN TO TASK FOR ADMONISHING CONGRESS ON TARIFF

WASHINGTON, Mar. 25.—(AP)—Chairman Legge, of the farm board was taken to task in the senate today by Senator Borah of Idaho for his statement yesterday contending the export debenture plan was unworkable, the Idahoan remarking that Legge would do better to "demonstrate his fitness to deal with the farm situation before undertaking to advice congress regarding legislation."

Borah, who has advocated the export debenture principles of farm relief, which is opposed by President Hoover, placed the Legge statement in the Congressional Record. Alongside it he placed a statement by Alexander Hamilton on the protective tariff, "with apologies to Mr. Hamilton.'

"I notice Chairman Legge has taken a little time off from his arduous labors," Borah told the senate, "to make a statement on the export debenture. I think it would be more satisfactory to the country of Mr. Legge would demonstrate his fitness to deal with the farm situation before he undertakes to advise congress regarding legislation."

Senator Borah did not amplify the terms of the Alexander Hamilton statement. Legge, in opposing the export debenture system, which was incorporated in the tariff bill by the senate, contended that "foreign importing countries undoubtedly would put up insurmountable barriers—perhaps to the extent of an embargo—against American produce on which the debentures were operative."

Fred M. Copeland of Pursley spent Tuesday afternoon in the city attending to business.

MISSING CLEVELAND CHEMIST AND WOMAN WERE SHOT TO DEATH

CASE BELIEVED TO BE SUICIDE PACT OF COUPLE MISSING FOUR MONTHS

VIENNA, Mar. 25.—(AP)—Four months of search for Dr. Ernest Watzl, Cleveland chemist and inventor who disappeared last November, was ended today with identification of his body by his father in a hotel here. With Watzl's body was that of a woman believed to be Mrs. Mary McGranahan of Cleveland.

The bodies, both bearing gun shot wounds, were found in a room at the hotel Sacher yesterday. The woman was known here as Josefa Kropej, but she as reported to be a mannequin named Mary McGranahan, whose mother, named Julia Horvath, is a resident of Cleveland.

This morning H. Watzl, a watchmaker and now owner of a toy shop in Vianna, identified the body of the man as "Hermann Watzl," his son. He said that his son was a chemist forty years old, that some years ago he went to the United States to sell patents and that *there he married and had three chil*dren.

Some months ago the younger Watzl disappeared and his wife, unable to obtain insurance, instituted police inquiries for her husband which were unsuccessful. The elder Watzl told police that he did not know his son was back in Austria until he saw the name in the newspapers in connection with the suicide.

From the information gathered here the dead woman was married in Cleveland and her husband sued Watzl for $5,0000 for the estrangement of his wife.

Financial distress, coupled with worry over this suit, was believed here to have been among the couses leading to the suicide of the couple.

Watzl Conspicuous Figure in Cleveland

CLEVELAND, March 25.—(AP)—Dr. Ernst Watzl, Cleveland chemist, timed his death in Vienna as dramatically as he did his disappearance in Pennsylvania.

The $60,000 life insurance policies which he kept paid while eluding a four-months search would have expired a few hours after his death. His friends here believed that, driven to desperation by financial difficulties, he timed his suicide so that his widow and the persons who financed his last trip would not suffer.

James L. McGranahan, whose pretty 20-year-old wife, Mary, disappeared shortly after the chemist, said his wife once told him she and Dr. Watzl once went on a motor trip planning suicide, but that the inventor "backed out." Mrs. Watzl declined to comment.

Mary McGranahan, a beautiful girl of Hungarian parentage, was known here to have been infatuated with Dr. Watzl, and had left her husband to spend much time with the romantic chemist.

Accepting part time employ as Dr. Watzl's secretary, Mary also was known to have posed as a model in his studio. Dr. Watzl had considerable ability as an artist. He was a connoisseur of feminine beauty and delighted to depict it *on canvas.*

Dr. Watzl's bearing, ability to make friends and reputation as a chemist opened the city's best homes to him. He was a conspicuous *figure in night clubs.*

WACO MAN WILL GUIDE DESTINIES OF COTTON BODY

TEXAS COTTON CO-OPERATIVE ASSOCIATION FORMED SECURE FEDERAL AID

DALLAS, March 25.—(AP)—Lawrence Westbrook of Waco will gruide the destinies of the Texas Cotton Cooperative association, formed to allot federal farm aid to the cotton farmers of Texas.

Announcement of Westbrook's appointment was made yesterday by C. O. Moser, vice-president of the American cooperative, through which the Texas association will work with the federal farm board. Moser said all members of Governor Moody's special cotton committee, named to draw up plans for the Texas association, representatives of the federal farm board and American cotton cooperative and directors of the Texas Farm Board Cotton federation had approved the choice.

Westbrook outlined plans for work of the association. District headquarters will soon be set up throughout the state, with temporary state headquarters maintained here and solicitation of members will follow. Every cotton farmer in the state will be eligible for membership.

COMPANY IS FORMED TO BACK TRANSPORT BY AIR OVER OCEAN

FORMATION INTERNATIONAL ZEPPELIN TRANSPORT CO., HAS BEEN COMPLETED

NEW YORK, March 25.—(AP)—Dr. Hugo Eckener, commander of the dirigible Graf Zeppelin, announced today that, with the backing of a group of large industrial and banking concerns, organization of the International Zeppelin Transport Company for trans-Atlantic airship service had been effected.

He said the capital had been subscribed and by the end of the year studies preparatory to actual operation would be completed.

The companies interested in the project include the National City Bank, the United Aircraft & Transport Corporation, the Union Carbide Company, the Aluminum Company of America and the Goodyear Zeppelin Corporation of Akron, O.

P. W. Litchfield, head of the Goodyear Company, is president of the Zeppelin Transport Company, which was incorporated in Delaware last October.

Dr. Eckener said that airships larger than the Graf Zeppelin and more than twice the size of the United States navy dirigibles Los Angeles, would be built in both the United States and Germany for the service.

He said he favored Seville, Spain, as a site for the European airport for the dirigibles, and some point near Baltimore or further south for the American terminal.

THREE DENIALS ARE MADE OF CONFESSION IN FAIRFIELD CASE

ALIBI CLAIMED FOR YOUNG MAN ACCUSED ATTEMPTING TO BURN GIRL

FAIRFIELD, Mar. 25.—(AP)—Exonerated by Miss Wilma Jones of any connection in an alleged attempt on her life in a hotel room here last Wednesday, G. S. Moore, Oakwood business man, will be freed of a charge of arson and a charge of atempt to murder, W. V. Geppert, county attorney, announced today.

The charges were filed shortly after Miss Jones was found bound with a lace curtain in a room of Fairfield's only hotel beside a burning bed. After his arrest, Moore added $100 to a $250 reward offered by Gov. Dan Moody for the arrest of the woman's assailant.

It became known today that Tommie Dodd, charged jointly with his mother and Miss Jones in connection with the signing of Moore's name to a check, was held in jail at Mexia. Dodd, at whose home in Buffalo Miss Jones lived, was transferred from jail here to the Mexia prison after Miss Jones had made a second statement to officers in which she exonerated Moore.

Sam McCorkle, district attorney, questioned Dodd last night and indicated Dodd maintainened his innocence. Officers said he probably would be returned here today.

Rangers sent here by Gov. Moody left for Buffalo this morning to seek further confirmation of Miss Jones' latest statement.

FAIRFIELD, March 25.—(AP)—Confronted with three denials, one from the accused man, investigators of the alleged attempt to burn to death Miss Wilma Jones, attractive Leon county girl, today sought further confirmation of her second story of the attack last Wednesday midnight.

The other denials were by the accused man's mother and a neighbor who spent Wednesday night at their Buffalo home. All three declared that the man named by Miss Jones as the person who tied and gagged her and fired her mattress when she told him she planned to "tell the truth" about forging checks with the name of G. S. Moore, Oakwood businessman, had been in bed all the night when the attack allegedly occurred.

Mrs. Sarah Jane Dodd of Buffalo, with whom Miss Jones stayed, was free on $500 bond today, and her son, Tommie, 30, charged jointly with his mother and Miss Jones in the forgeries, was held at an unannounced place, where he was taken immediately after Miss Jones' second statement. Moore, exonerated in the girl's confession, expressed his belief that his name had been cleared.

R. D. CATON DIED TUESDAY MORNING BURIAL WEDNESDAY

Caton ,aged 69 years, longtime resident of Corsicana and Navarro county, died at his home in the Oak Grove addition, northeast Corsicana, Tuesday morning at 9 o'clock and the funeral will be held from the family home Wednesday afternoon at 2 o'clock with interment in Oakwood cemetery. He had been in ill health for some time. The funeral will be conducted by Revs. Aron and Burgess.

Surviving are his wife, three sons, R. T. Caton and T. B. Caton, both of Corsicana; and W. H. Caton, Houston; three daughters, Mrs. Katie Pearl Tate, Dallas; Mrs. Myra Eckerman, Corsicana, and Mrs. Id Mae Dempsey, Arizona, and other relatives.

The funeral will be directed by the Sutherland Funeral Home.

Former Corsicana High Student Makes Houston Honor Roll

Tommie Winters, former Corsicana high school student, who is now attending the Sam Houston high school, in Houston, was selected as one of the 99 honor students in the school, and will serve in the school library, according to an interesting article in a recent issue of the Houston "Press," which was accompanied by a group picture of the honor students. Young Winters was in the local high school during the 1926-27 term, and will graduate from the Houston school at the end of the 1930 spring term. He plans to enter the State University.

About 15 of the honor pupils are employed in the large school library every period, and have charge of issuing books, seeing that order is maintained, and helping other students find reference work. The student helpers have no special training for the library work, but are selected according to their scholastic standing, initiative, and interest, according to the article.

Child Killed In Auto Crash Late Monday

RANGER, March 25.—(AP)—Forty-five minutes after her mother and aunt had been taken unconscious from the wreckage of an automobile which was struck by a passenger train at a grade crossing, the body of four-year-old Marporie Ruth Crabb was found in a partly filled water hole alongside the road.

Mrs. Lonnie Crabb and her sister, Mrs. Fred Williams, were critically injured in the crash, and passing motorists were unaware that the child had been in the car.

The injured women were brought to a hospital here, where last night they were in a serious condition.

DOZEN CANDIDATES FOR GOVERNOR NOW OTHERS TO COME

RUMORS STATE TWO DAVIDSONS—LYNCH AND T. W.—WILL ALSO ENTER RACE

By R. W. BARRY
Associated Press Staff Writer

AUSTIN, March 25.—(AP)—Twelve candidates for governor already in the democratic race, rumors had the list was not closed by any means. There were reports the two Davidsons—Lynch of Houston and T. W. of Marshall—both former lieutenant governors and both candidates for governor in the primary of 1924, would make formal announcements of their candidacies soon.

The Davidsons ran neck and neck, Lych receiving 141,208 votes and T. W. 125,011, the former being third from top and only 5,216 votes behind Mrs. Miriam A. Ferguson, who went into the run-off and won the nomination from Felix D. Robertson of Dallas. In the 1926 primary, Lynch Davidson was a candidate and again ran third, Gov. Moody receiving as many votes as Davidson and Mrs. Ferguson, seeking renomination, combined.

The latest, corrected list for candidates for governor: Oscar F. Holcombe of Houston, former mayor; E. G. Senter of Dallas, former state senator; Thomas B. Love of Dallas, state senator, former national committeeman and one of the leaders in the movement within the party to bolt the presidential nominee in 1928; Miss Katie Daffan of Ennis, active in work of the United Daughters of the Confederacy; Barry Miller of Dallas, lieutenant governor for six years and former state senator; T. N. Mauritiz of Ganado, member of the house of representatives and advocate of an income tax; W. Gregory Hatcher of Dallas, state treasurer for six years; Charlton Brown of Mineral Wells, mayor; James Young of Kaufman, former congressman; Earl B. Mayfield of Austin, former United States senator and former member of the railroad commission; James E. Ferguson of Austin, former governor and husband of former Gov. Miriam A. Ferguson, Texas' first woman chief executive, and Fred B. Robinson of Waco, former newspaper publisher.

Other Offices Sought

In this connection it is interesting to list candidates for other state offices. Next to governor, lieutenant governor, the attorney general's place and the office of commissioner of agriculture are attracting the most aspirants.

Candidates for lieutenant governor are James P. Rogers of Houston, J. D. Parnell of Wichita Falls, W. H. Bledsoe of Lubbock, Virgel E. Arnold of Houston, Sterling P. Strong of Dallas and H. L. Darwin of Paris.

R. L. Bobbitt of Laredo, filling out the unexpired term of Attorney General Claude Pollard is a candidate and others seeking the office are Rep. Cecil Storey of Vernon, J. V. Allred of Wichita Falls, Joe Burkett of San Antonio, and Ernest Becker of Dallas. Storey was a member of the house for eight years, Allred was a candidate in 1926 and lacked only a few hundred votes topping General Pollard, and Burkett is a former state senator and a former member of the state highway commission.

Candidates for commissinoer of agriculture to succeed George B. Terrell, who will not seek reelection, are J. H. Burkett of Clyde, Rep. A. H. King of Throckmorton, E. L. Covey of Goree, W. T. Parker of Corsicana, Ed Waller of San Marcos and R. M. West of Navasota.

Ed Christian of San Antonio, Charles R. Lockhart of Austin and J. R. Ball of Bryan are candidates for state treasurer, and former Gov. Pat M. Neff, chairman of the railroad commission, is opposed by Senator Nat Patton of Crockett for the regular six-year term as a member of the commission.

Those so far unopposed are J. H. Walker of Austin, commissioner of the general lang office; S. M. N. Marrs of Austin, state superintendent of public instruction, and George K. Sheppard of Sweetwater, comptroller.

HIDALGO COUNTY JUDGE IS WINNER ELECTION DISPUTE

AUSTIN, March 26.—(AP)— The supreme court today held that the Travis county district court did not have jurisdiction in the case of *Gordon Griffin against J. E. Leslie*, involving the Hidalgo county district judgeship, and reversed the judgment which was favorable to Griffin and dismissed the case.

Leslie, incumbent, will retain his office. He was supported in the election by the faction headed by Sheriff A. Y. Baker.

Griffin had contested the election of Judge Leslie to the judgeship on grounds the returns as canvassed by the Hidalgo county commissioners' court did not show the true result. The votes cast in the Weslaco box wer not included in the count, because the envelope bearing them was unseald and because of other alleged irregularities.

Griffin brought suit in Travis county to enjoin Mrs. Jane Y. McCallum, secretary of state, from issuing a certificate of election to Leslie. Leslie attacked the suit on grounds the court did not have jurisdiction.

The court decided it had jurisdiction, overruled a privilege plea and handed down a judgment for Griffin, ordering the commissioners to recanvass the election and include the votes cast in Weslaco box. The judgment was affirmed by the third court of civil appeals here, and the supreme court granted a writ of error.

Griffin was a candidate on the ticket placed in the field by the Independents against the regular Democratic nominees, supported by Sheriff Baker, on whose administration the independents centered their attack.

Mr. and Mrs. J. Elmer Butler, Jr., Wednesday for Raymondville, where they will make their home for the next several weeks. Mr. Butler is connected with the F. P. McElwrath paving company, and that firm has some extensive contracts in that sector of the state.

NEW ORLEANS, March 27.—(AP)—Spot cotton closed quiet, 5 points down. Sales 410; low middling 13.91; middling 15.41; good middling 16.00; receipts 5,352; stock 439,290.

New York Cotton Steady.

NEW YORK, March 27.—(AP)—Cotton opened steady at an advance of 10 points to a decline of 3 points in a continuation of near moth covering. May sold up to 15.95 on initial demnds, or 15 points net higher and into new high ground. July was also active, advancing to 15.90, or 12 points net higher, but later deliveries were quiet, and there was further selling of new crop positions by buyers of spring and summer months.

Initial demand for near months was supplied on the opening advance to 15.95 for May and 15.90 for July. Buying then tapered off while there was some scattered selling of May, which seemed to come partly from New Orleans, and the market was rather quieter late in the morning with prices showing moderate reactions. May sold off from 15.95 to 15.82 while new October declined from 15.20 to 15.10 with active months about net unchanged to 4 points higher at mid-day.

Futures closed steady, 8 points lower to 2 higher. Spot quiet; middling 16.00.

New Orleans Cotton Irregular.

NEW ORLEANS, March 27.—(AP)—Cotton had a somewhat irregular opening, and first trades were 3 to 5 points down on old crop months and 7 points on new crops in sympathy with cables lower than due on old crop months and better than due on new crop. The market soon rallied on crop positions, owing to continued buying by the short spot interest, May trading up to 15.56, and July to 15.53, or 14 to 15 points up from the opening prices. October traded at 15.19, or unchanged from the opening. The end of the first hour the market was steady and near the highs.

Liverpool Spots Higher.

LIVERPOOL, March 27.—(AP)—Cotton spot fair demand; higher; American strict good middling 9.45; good middling 9.10; strict middling 8.75; middling 8.45; strict low middling 8.15; low middling 7.60; strict good ordinary 7.05; good ordinary 6.65. CHILDREN ESCAPE SAFELY AS SCHOOL BUILDING BURNS

FORT WORTH, March 27.—(AP)—Four hundred and seventy-five pupils of the M. G. Ellis grade school marched or slid down chutes to safety today as fire destroyed the building.

The fire was discovered in the basement. Within a few seconds the blaze spread up a stairway and along a hall on the first floor. Within a short while two sides of the building were in flames.

Principal G. L. Adams sounded an electric alarm bell. Pupils formed orderly lines.

MOODY FAILS SIGN PRISON BILL BUT MERELY FILES IT

AUSTIN, March 27.—(AP)—Governor Moody today filed without his signature the bill appropriating $575,000 for rehabitation of the penitentiary system. He voted seven bills, included bill creating two new district courts.

He filed the bill creating new district courts in Dallas county, in Neuches county, and in the Panhandle comprised of the counties of Gray, Hutchison and Carson counties.

Court bill vetoed were those creating the 120th district of Van Zandt, Kaufman, Rockwall, and Dallas counties and the 115th district of Coleman, Runnels, Tom Greene, Coke and Concho counties.

TAX SCHEDULE FOR OIL PROPERTIES IN NAVARRO COUNTY

E. F. (Mose) Wells, tax assessor of Navarro county, Monday announced the following schedule to be used for 1930 in the rendition and taxation of oil properties within the county, which is identical with that used in 1929:

Production—Powell field—Working interest, $300 per barrel; royalty interest, $500 per barrel. Richland-Currie field—working interest $250 per barrel; royalty interest, $410 per barrel.

Pipelines—2-inch line, per mile, $500; 3-inch line, $800; 4-inch line, $1200; 6-inch line, $1,750; 8-inch line, $2,650; 10-inch, $3,600; 12-inch line $5,000.

Deep wells, each, $2,000; shallow wells, $1,000; storage oil, 75c per barrel; boilers, oil field, $300.

Tanks—tanks above 10,000 barrel capacity, 10c per barrel; 10,000-barrel tanks, $1,250; 5,500 barrel tanks, $750; 3,750-barrel tanks, $650; 3,000-barrel tanks, $600; 2,000-barrel, $500; 1,500-barrel, $375; 1,000-barrel, $300; 750-barrel, $225; 500-barrel, 175; 250-barrel, $100.

Gas and oil engines, about $50 per horsepower; pumps, 1-2 value of engines; Rotary drilling rigs, $5,000; standard drilling rigs $1,750.

Old shallow wells, including equipment and tankage under 250 barrels, $400; pipeline telegram and tleephone lines, per mile, $125.

The valuation of work and royalty interest is based on the daily average production for the months of January, February and March, 1930.

Grain and Provisions

Following the early bulge in prices, due to covereing by shorts in near months, the market graadually quieted down, and prices eased off 8 to 12 points from the highs. May dropped to 15.44, July to 15.42 and October to 15.12, at these levels, prices were 3 to 4 points below yesterday's close. At noon the market was quiet and near the lows.

Rural School Aid Case Reaches High State Court Today

AUSTIN March 27.—(AP)—The case attacking constitutionality of the Texas $5,000,000 rural aid fund reached the supreme court today. A San Antonio district court had granted an injunction to enjoin S. M. N. Marrs, state superintendent, from paying out any of the funds, but the fourth court of civil appeals dissolved the order. The higher court was asked to grant a writ of error.

HIGHWAY BONDS SOLD MONDAY TO CORSICANA BANK

FIRST NATIONAL BANK PURCHASES PART OF ROAD DISTRICT NO. 1 ISSUE

At the Monday afternoon sesson of the Navarro county commissioners' court, bonds of Consolidated Road District No. 1 in the sum of $166,000 were sold to the First National Bank of Corsicana for par and accrued interest, less 1 per cent. The court held a conference with property owners between Chambers creek and the eastern boundary line of Consolidated Road District No. 1, two miles east of Powell Tuesday morning in the matter of procuring the necessary right of way. This is the first step toward the procuring of the right of way on State Highway 31 between Corsicana and the district line eas tof Powell.

The plans and specifications have been changed and altered on the location of the highway from Corsicana to Chambers creek and have not been returned to the local officials.

A number of road claims were allowed Monday afternoon. The minutes of previous meetings were read and approved.

Porter's Bluff Bridge.

The commissioners stated that they were taking a favorable attitude, according to a motion passed passed Monday afternoon, toward the ultimate securing of a bridge spanning Trinity river between Navarro and Henderson counties at Porter's bluff and a copy of the action is to be sent to the local chamber of commerce officials and road enthusiasts as well as to the commissioners court of Henderson county which have evidenced interest in the proposed project.

Ben F. Guynes, county commissioner, who resides in Chatfield, stated Tuesday that nothing definite had been done on the project, but that Henderson county citizens had evidenced considerable interest in the proposal. He said that the preliminary conferences had disclosed an idea that the bridge should be of the span type, with a carrying capacity of 15 tons and that off-hand, he thought such a bridge could be constructed for approximately $40,000.0

There has been agitation for such a bridge for years. The proposed installation of a ferry at Porter's Bluff by G. W. Weems of Corsicana has been definitely abondoned, Commissioner Guynes stated. It will likely be a considerable time before the proposed construction of the bridge is definitely decided upon, but the residents of northeast Navarro county and the citizens of Henderson county in that vicinity have shown interest in the securing of such a bridge.

DEATH SENTENCES REVERSED BECAUSE INDICTMENT WORDING

AUSTIN, March 26.—(AP)—Two death sentences and one life imprisonment sentences were reversed and remanded by the court of criminal appeals today because the indictments did not alleged the defendants killed with malice aforethought. The court had previously ruled that under the law, unless one killed with malice aforethought they could not be given a sentence or more than five years in prison.

Ofilio Herrera, given death by a Mason county jury for murder of Sheriff A. T. Murray on February 28, 1929; Will Fritts, against whom the extreme penalty was inflicted in Jones county for the murder of Earl Hamilton on Oct: 24, 1928, and E. Gilbert of Tyler county, given life for murder of Wesley Mo Carty on Jan.. 19, 1929, won new trials because of this defect in the indictments.

The court overruled motion for a rehearing of William Pruitt, Jr., given death in Dallas for the murder of William Mann on Jan. 6, 1929. The court had previously affirmed the conviction. Mann, a high school youth, was attacked while driving in an automobile with a young woman.

The state lost its motion for a rehearing in the case of Ardell Landers, Dallas, whose death sentence had been reversed and the case remanded for new trial on account of the malice aforethought indictment defect. Landers was convicted of the murder of Joe Picolla on Feb. 9, 1929.

The life imprisonment sentence against S. H. Newton, convicted in Tarrant county for murder of J. P. Arold on Oct. 8, 1928, was affirmed.

Roaming the Realm of County Sports

By DELMORE OLSEN.

Unless it is impossible for schools participating in the athletic events of the Navarro county track, field and literary meet which were abruptly halted last Friday afternoon, to reach Frost Saturday, the events will be completed at that time, according to a statement made by Charles McMichen, director of athletics, Thursday morning. It was pointed out by the director that Saturday is the final week end on which the meet could be held and it was imperative that the athletic contests be finished on that date.

In the events old Jupiter Pluvius scores another tecrnical knockout this time, the events will be run the first day possible next week and the winners certified for the district track meet which will be held in Hillsboro soon after the county meet is concluded.

All literary events have been completed and winners announced in each department by Director General W. V. Harrison. Only atletic contests remain to be completed and winners sent into district headquarters before the district meet.

Seven teams were represented at the meeting of the board of directors of the Navarro County Amateur Baseball League held Wednesday evening in the Daily Sun office with the Central Texas Refining Company of Angus being the new member. A number of important business matters, including the drawing up of rules and regulations, was attended to, and a meeting of the governing body called for Saturday evening, April 5, to draw up a schedule and certify list of entries and entry fees.

Considerable interest in the league's activities have been shown by a number of Navarro county fans and it is expected that each community represented at the meeting will be ready to go by Saturday, April 5, the final day on which the entrance fee of $25 can be paid.

The following rules were adopted at the meeting: The league will open April 20 and close Aug. 17. Playing days were set for Wednesday, Saturday and Sunday.

Each team will be limited to 16 men, with no players to be added during the last three weeks of either half. If a player is added during the playing season, exclusive of the time mentioned above he must be certified two weeks by the league before eligible to play.

If a player used by a team is found to be ineligible, the team will be forced to forfeit game in which player participated.

The Spalding ball adopted as official for the league, and the home team is required to furnish balls for games.

Other matters concerning the league's activities which might be brought up and making the schedule for the first half will be discussed and acted upon at the called meeting April 5.

The above rules look pretty good to us, and we see no reason in the world that the league should not be a great success in the county.

RULES ADOPTED BY COUNTY LOOP; SEASON OPENS APRIL 30

Seven teams were represented at the meeting of the Navarro County Amateur Baseball league held at the Daily Sun office Wednesday night and plans for the opening of the season were outlined. The seven teams that have signified their intention of being ready when the season opens, on April 20, are the Magnolia Millers, and American Well and Prospecting company, both of Corsicana; Bazette, Blooming Grove, White's Chapel, Humble Oil and Refining company and Richland-Cen-Tex. All of the clubs were represented except Blooming Grove. It was decided that an entrance fee of $25 would be required that it is necessary that the entrance fee be in the hands of the secretary-treasurer not later than April 5. In the event that the entrance fee is not turned in by April 5, the club will be out of the league and the schedule will be drawn with only those teams whose entrance fee has been paid. Any other teams in the county who wish to enter the league can do so by posting the entrance fee before the time-limit expires.

It was decided that the season will open, Sunday, April 20, and close Sunday, Aug. 17.

A meeting of the officials and managers has been called April 5 in the Daily Sun office, at 7.30 to make the schedule and attend to other maters which may be presented.

It was brought out in the discussion that Bazette could not play week-day games for a time and that no Sunday baseball would be allowed at Blooming Grove and Bazette. The schedule is to be arranged to care for these contingencies. The playing days will be Wednesdays, Saturdays and Sundays, but only two games will be played by each team per week.

Ten per cent of the gate receipts of each game shall go in to the treasury of the league for current expenses and the remaining 90 per cent will be divided with 60 per cent to the winning and 40 per cent to the losing club.

Each club will be allowed sixteen players on the eligible list and the managers must certify their players not later than April 15. It was decided that no club would be allowed to certify a new player during the last three weeks of the first half or the second half.

Any club that plays an ineligible man will forfeit the games to the other club in which the ineligible player participated.

Zeb Howell of Ennis, representing the Spaulding and Sons concern, appeared before the meeting and the Spaulding ball was adopted as the official ball of the league. The Spaulding company will furnish gold baseball or other trophies to the winning team at the end of the season. The Spaulding lively ball was adopted for the league games. Baseball for each game are to be furnished by the home club.

PIONEER RESIDENT OF NAVARRO COUNTY BURIED CHATFIELD

ENNIS, March 25.—Funeral services were held here Saturday for Capt. J. M. Harper, aged 90, Confederate veteran, who died Friday, and the body was taken overland to Chatfield, his former home, where interment was made beside the body of his wife who died several years ago. He came to Texas 60 years ago, settling in Lamar county, and came to Chatfield 41 years ago, where he resided until he retired from active business. He lived in Rice for a time prior to moving to Ennis.

The funeral services were conducted by Rev. Walter Griffith, Methodist minister of Corsicana, a long-time friend of the deceased. Miss Katie Daffan, Ennis, president of the Texas Daughters of the Confederacy, paid a tribute to Mr. Harper as a Confederate veteran and hero.

Surviving are ten children, two daughters, Mrs. C. B. Knight of Ennis, and Mrs. James Mizell, Chatfield; Eight sons, Dr. W. M. Harper and R. L. Harper of Dallas, Dr. W. A. Harper of Zapata; Jess Harper, Rice; G. W. Harper, Edna; J. A. Harper, Temple; J. B. Harper, Corsicana; S. O. Harper, Chatfield; twenty-seven grandchildren and one great-grandson, Harper Huddleston, who was born on his birthday.

INDIANA YOUTH IS KILLED BY GUARD WHILE FLEEING

Ralph Berlon Graf, aged 19, of Tipton, Indiana, was almost instantly killed about 5:25 o'clock Tuesday afternoon when he jumped from a county farm truck conveying 18 convicts and made a break for his liberty. He was struck in the back wtih a charge of buckshot from a shotgun. T. M. Franks, farm guard, stated he fired the gun. The mortally wounded boy was rushed to the Navarro county hospital but was dead when he reached there. The shooting occurred on North Seventh street between the Navarro Cotton Oil Company and American Well & Prospecting Company sites.

The body was taken to the Sutherland Funeral Home and prepared for burial. Relatives were notified and a telegram was received from his father, J. P. Graf, about 8 o'clock Wednesday morning, stating he desired the body returned to Tipton. The body, accompanied by Homer Alspaugh, 20, also of Tipton, will leave Corsicana at an early hour Thursday morning.

Mr. Franks stated that he fired at the youth's feet from the truck after he failed to heed his command to halt, but that the youth stumbled as he shot, causing the charge to strike him in the back. The youth was 40 or 50 yards from Franks when he fired.

Graf and Alspaugh, life-long pals, were arrested here during the week end for the allged unlawful riding of a fright train and were sent to the county farm Monday afternoon to work out their fines.

No Charges Filed.

No complaints had been filed against Franks early Wednesday and officers at the sheriff's office stated that no complaints would be lodged, but that the case would be carried directly before the Navarro county grand jury, now in session. It was stated that Franks, C. E. White, superintendent of the farm, and others, would be interrogated by the grand jury during the day. Mr. White was not present at the time of the shooting. Mr. White stated Wednesday morning that he would release Alspaugh from the county farm without the payment of his fine in order that he might accompany the body of his friend back to Indiana.

Alspaugh declared late Tuesday afternoon, between sobs, that he and Graf had traveled considerably together and had known each other since both were little boys.

Graf had served with the United States Marines at Panema. He left Tipton with Alspaugh, March 15 to look for work. Graf was a non-commissioned officer in a Tipton unit of the Indiana National Guard.

Surviving Graf are his parents, one brother and one sister, who reside in Tipton.

BOTH POLITICAL PARTIES PLAN FOR COMING CAMPAIGN

LARGE LIST OF CANDIDATES FOR PLACES ON LOCAL TICKET ANNOUNCED

Officials of both the democratic and republican county organizations are making preliminary plans for the approaching election year and its various meetings and primaries.

The tax collector is to furnish the county election board, which is composed of the county clerk, county judge and sheriff, with a list of the poll and exemption lists of voters of the county not later than April 1.

All candidates for state offices and district offices, when the district embraces more than one county, shall file their applications with the state and district chairman not later than June 2 for places on the primary ballots.

The county executive committee will meet June 16 and will issue the call for the holding of the precinct conventions to elect chairman and delegates for the county conventions. Assessments for the expense of primaries will be levied against the candidates this meeting. By June 14, all county and precinct office-seekers must have filed their applications with the county chairman.

The assessments of the candidates for the expenses of the primaries must be paid by June 23.

Expense accounts must be filed between June 26 and July 1; the second expense account is due July 14.

The democratic primaries will be held July 26.

CONFERENCES FOR EDUCATION WACO PRESBYTERY HELD

INTERESTING SESSIONS HERE MONDAY AFTERNOON AND EVENING

Educational conference, intended to acquaint the membership of churches comprising the Waco Presbytery with the work of the board of Christian education, Presbyterian church, U. S. A., and the place of the church school in the life of the church, and its influence on students attending such institutions, were held Monday afternoon and evening at the Third Avenue Presbyterian church. Representatives were present at the meeting from practically every church in the northern and eastern portion of the Presbytery.

Speakers for the one day conference were Dr. F. E. Stockwell, general secretary of the board of Christian education, with headquarters in Philadelphia; Dr. J. H. Burma, president of Trinity university, Waxahachie; and Dr. B. A. Hodges, field representative of the Christian education board for the Synod of Texas.

Representatives from churches in Waxahachie, Midlothian, Ferris, Mexia, Wortham, Teague, Kerens and Corsicana were present at the conferences. Several smaller churches in the jurisdiction of the Waco Presbytery were represented at the afternoon session.

During the afternoon session, the church and its education program for young people and adults, what the board of Christian education is doing for the church and the reason for Christian education and Christian colleges were discussed by the speakers.

At the evening service, Dr. F. E. Stockwell addressed the conference, discussing the work of the board, its organizations, aims and ambitions for the program for the year which begins April 1st and Dr. J. H. Burma, president of Trinity university, spoke on the place of the church school in the program of activities sponsored by the church, and its influence upon students attending the school.

Evening Service

Following a short devotional period which opened the evening session with congregational singing and a prayer by C. E. Richter, pastor of the Presbyterian church in Wortham; Dr. F. E. Stockwell was introduced by the host pastor, P. Martin Baker, and announced his subject for the evening as "What the Board of Christian Education Is Doing Throughout the Nation to Make Christian Manhood and Womanhood."

The speaker prefaced his remarks by stating the board which he represented was glad of the opportunity to give account of its stewardship and to tell of its work during the past seven years of service since organization.

The board of Christian education, he declared, laid the foundation for foreign mission work by interesting the church membership as a whole in the work of that great body. The fundamental principle which underlies the work of the board, he declared, was the recognition of the paramount part of the educational program, the individual child, and prepared that individual in such a way, through the use of age groups literature for Christian work both vocationally and advocationally.

Teaching of Young

In discussing the methods used in teaching the child and young men and women, Dr. Stockwell declared that the board had returned to the principles laid down by Jesus Christ, whom he declared was the greatest teacher of the ages. The two methods of instruction which are in vogue today, the transmissive and creative, were discussed. The first named method, that of transmissive was described by the speaker as being that system by which every man is taught a gainful occupation and thereby prepared to make a living.

The creative method, Dr. Stockwell stated, not only taught the child how to make a living by developing all faculties to the greatest state of perfection, but above all how to make a life.

Every organization in existence today is judged by the product produced by its method, Dr. Stockwell declared, who continued by stating that the board of Christian education is endeavoring by the use of age group materials to produce men and women vocationally and avocationally trained to carry on the work of the church from the youth of the church.

In the group age programs which have been adopted by the church as the course of study to instruct and develop the youth of the church into workers in the kingdom, all four phases of the work are taken care of, that of instruction, devotion, expression and recreational, making what he declared to be a well-rounded program to enlist the interest and attention of boys and girls in the study of the Bible and church work.

Old Theory Exploded

The old theory that "You can't teach an old dog new tricks," had been exploded, the speaker declared, and acting on the new adage, "a person is never too old to learn," the board of Christian education has outlined a program of study for the adult members of the church.

In conclusion the speaker turned directed his remarks to the place of the Christian college in the church, stating that the purpose of tax supported schools in the imparting of specific instruction while that of the church school is to develop Christian character.

Only men and women teaching in church schools, he stated, were those who not only believed in the principles laid down by Jesus Christ as found in the Bible, but also practiced the min everyday life. All subjects are taught in a church school he stated but only through the viewpoint of the Christian Philosophy of life, the recognition of God as supreme.

The church school, true to its mission, puts an indelible imprint on each student, regardless of origin, and sends him out into the world as a good citizen, motivated by the idea of service, the speaker said in conclusion.

Dr. J. H. Burma, president of Trinity University, speaking on the place of the church school, discussed the origin of such school discussed the origin of such schools, in time past and their place today in the church life. The interdependence of church and school throughout history of the church was illustrated by the speaker with reference to the work of Jesus Christ while on earth, who was called rabbi or teacher by the multitudes and his followers disciples or students.

Education and religion belong together, the speaker declared, and results in tragedy when separated.

Development Church Schools

In discussing the development of church schools the speaker declared that the first form was shown in the parochial school which was usually connected with the church and which was taught by the minister.

In the United States, the idea of popular education and tax supported institutions supplemented the work of the church school, and with the rapid increase in the dispending of knowledge in a very efficient manner by the public schools, there was no need of the church school for purposes of instructing the child, the speaker said.

As the school supported by the state grew, there was a corresponding decrease in the number of parochial institutions, Dr. Burma declared and Sunday schools were organized in the churches to bring religion into the hearts and lives of children. "This move on the part of the church was to try to join together again what God had joined, but we had unwittingly let drift apart," the speaker stated.

Not to teach religion is equivalent to teaching that religion is unimportant, Dr. Burma stated and quoting a significant statement made by Otto Von Bismark while Chancellor of the German empire that, "What you want the nation to be, teach it in the schools."

Higher Education.

The Christian college, a higher development than the parochial school came into existance when churches joined forces to carry students farther up the educational trail, which in the beginning of such schools was to prepare men for the clergy and law profession. Citing the foundation of a number of colleges early in the history of the United States, the speaker stated that there was a religious motive behind such a move.

In the western portion of the United States the tax supported or public schools became dominat institutions and church schools faced a serious crisis, that of completely reorganizing the course of study to take care of the needs of graduates of public schools, and in reality become colleges, dispensing with academic work.

Only schools with adequate reserve funds to make the necessary readjustments were able to survive, Dr. Burma declared, and those that did came through the crisis much greater and better schools as a result of the changes.

The church schools are facing a new crisis today, Dr. Burma declared, that of the conditions arising from the popularization of the Junior college movement, and is making a great difference in the school course of study.

Work of reorganizing the course of study at Trinity University, with the addition of new courses for junior and senior work, is now under way, the speaker declared, and that arrangements to offer special courses of interest to graduates of junior colleges was being contemplated.

The move to build and support junior colleges in cities and towns throughout Texas was declared by the speaker to be a great thing for the prospective college students, as it would give them at least two more years at home and work with the home church, and in many ways prepare them for serious work during the last two years of college in a graduate institution.

The future of Trinity University rests in the hands of Presbyterian churchmembers throughout the state, the speaker said, and during the next five years the university must re-arrange its course of study to accomodate junior college graduates or revert to a junior college itself.

B. A. Hodges, the final speaker, commenting on the series of conferences which have been held over the state during the past two weeks declared that the response at each was highly gratifying to the workers in the field and urged those present at the meeting to co-operate with the board of Christian education in every way and aid it in its great task.

The meeting was closed with a prayer by Dr. E. F. Stockwell.

Afternoon Session.

Dr. B. A. Hodges, synodical field representative for the Board of Christian Education, was the first speaker of the afternoon session, discussing the new age group plan which has been adopted as the course of study by the general assembly, and is in use in a number of churches throughout the nation.

If the aim of the church is to produce Christian manhood and womanhood in the church, Dr. Hodges stated, the method to accomplish that aim is furnished by the national board, which has taken into consideration the psychological makeup of the child at various stages in growth and arranged the program to appeal to emotions dominant in that period.

Speaking of other activities sponsored by the church for its young people, the speaker mentioned the summer encampments, which he described as having a serious purpose with attractions for the young boy and girl, and daily vacation Bible school and week day schools.

Character is Caught

Dr. F. E. Stockwell, in liscussing the why of the Christian hollege, declared that the development of Christian character is by precept and example, and is "caught rather than taught." Men and women teaching in church schools are not only Christians and members of church but also live Christian lives, 'the speaker declared.

The Bible is taught in church schools, not so much for the facts contained in the book but for the philosophy of life exemplified and taught in the scriptures.

The small Christian college acts as a stabilizer in the educational system, the speaker declared, by putting emphasis on certain projects which are not stressed by tax supported institutions.

The speaker concluded his talk by discussing the organization of the Board of Christian Education and its place in the national organization of the Presbyterian Church, U. S. A.

The meeting was closed with prayer by J. H. Bruma, president of Trinity University.
